### SELF THINKING GREATEST NEED MINISTER SAYS

High School Graduating  
Class Hears Sermon  
By Rev. Clarke

### SEE REASON FOR FACTS, HE SAYS

Other Pastors Take Part  
On Program Last Night  
In Auditorium

It is the quality of being rational-ly different that lifts above the mass, declared Rev. A. M. Clarke, pastor of the First Baptist church, who gave the class sermon before the graduating class of Salem High school in the school auditorium Sunday night.

Rev. Clarke spoke on "An Intelligent Appreciation of Life," and urged more independent thinking in contrast to too ready acceptance of the opinions of others.

Mrs. James Hayden, pianist, played the prelude. Rev. C. F. Evans of the Christian church gave the invocation. Rev. C. E. Haworth of the First Christian church read the scripture. Special music was given by the choir of the First Baptist church. Dr. P. H. Gordon said prayer, and Dr. E. S. Collier pronounced the benediction.

Not Entirely Equipped  
Rev. Clarke, in his sermon, spoke in part as follows:

"You have reached another milestone on your educational journey. You are not entirely equipped for life but on the whole you are better fitted than the one who fails to finish his high school course. I urge you tonight to have an intelligent appreciation of life, to see things in proper perspective, to cultivate a mind that understands clearly and reacts wisely.

"Independent thinking and acting are prime essentials in a strong personality. We are too prone to accept without examination, the opinions of others. We are too much bound by custom and allow ourselves to become enslaved by the manners and mannerisms of society. We also are too fearful lest we go against the crowd. Yet it is a vital, sensible individuality that counts, it is the quality of being rationally different that lifts above the mass.

Clear Thinking The Demand  
"Higher education exists for the purpose of developing the student in this very way. A college does not exist for the purpose of exploiting (Continued on Page 5)

### ROTARY PRIZE GOES TO ALLEN

Is Outstanding Senior;  
Mary Older Elected  
"Football Girl"

Lowell E. Allen wins the annual Rotary Club prize for being the best all-around senior boy, and for having done the most creditable work for the school during his four years as a student.

The award was made this morning in the final assembly in the high school auditorium.

Rev. A. M. Clarke, pastor of the First Baptist church, presented Allen the prize. The prize is \$25 in aid.

Allen was voted the award by the members of the senior class last Tuesday. The announcement being made today. He has been outstanding in athletics, winning letters in football, basketball and track. In track he won honors as the interscholastic outdoor and indoor champion pole vaulter of America.

"Mary Older was elected 'football girl' in a mass election by the school during the assembly. The football was presented her by Hazel Beck, holder of the honor during the past year.

The prize is awarded to the junior girl showing the most interest in school athletics each year.

### SETTLEMENT IN CASE SAID NEAR

Newark, N. J., June 4.—Federal Judge William Clark stated today, following a conference at his office in an effort to settle damage suits totaling \$125,000,000, which five women, former employees, have brought against the United States Radium Corporation, that a settlement probably would be made this afternoon.

### Three Are Killed At Railroad Crossing

Washington, C. H. O., June 4.—Three are dead, and two seriously injured, one perhaps fatally, it was believed today, as the result of a grade crossing crash at Cook Station near here late yesterday.

The dead are: Ray Hiestand, 30; Robert Kennel, 8; and Dean Kennel, 6. Physicians hold little hope for the recovery of H. T. Hiestand, father of Ray. Percie Kennel, 35, driver of the auto will recover.

### To Meet Royalty

Miss Anne G. Colby, well-known American society girl, is now in Paris preparing to be presented at the fourth court at Buckingham palace at London, Eng., on June 12, before King George and Queen Mary. She is the daughter of Mr. and Mrs. Everett Colby.

### TO SIFT CHARGES POSTMASTERSHIP IN SOUTH BOUGHT

Brookhart's Committee to  
Delve Deep Into Matter  
After Convention

Washington, June 4.—An exhaustive investigation of charges that postmasterships have been bought and sold in the south was promised today by Senator Brookhart (R., Ind.), chairman of the special investigating committee named by the senate.

The committee will get under way shortly after the Republican national convention and will continue its inquiry all during the summer, Brookhart said.

"Whether there is any merit in the charges that public offices had been bartered away in the south I do not know, but if the charges are true the thing ought to be rooted out," said Brookhart.

Go Into Every Phase  
"The committee will go into every phase of the matter and give all sides an opportunity to be heard."

The investigation, resulting from the joint demand of Senators Harris and George, Democrats, of Georgia, will be the first ever conducted in this field.

It was brought about largely by the sensational suicide of L. S. Petersen, postmaster at Douglas, Ga., who left correspondence on which the Georgia senators based charges that the job was bought and sold.

Republican and national committees especially will come under the scrutiny of the committee.

Call New First  
The first witness probably will be Postmaster General New. After a conference with the postmaster general, Harris and George announced (Continued on Page 5)

### MILDRED BIRCH ELECTED EDITOR OF MAGAZINE

Columbus, June 4.—The new editor-in-chief of Apes and Peacocks, literary magazine, for 1928-29, is Miss Mildred Birch, of Salem, who was elected to the position at a recent meeting of Chi Delta Phi, honorary literary sorority at Ohio State university.

Miss Birch's selection to the editorship was made known at the annual spring initiation banquet of the sorority.

The Salem girl is a sophomore at the university and has been a member of the magazine editorial staff since it was established last year. She is enrolled in the school of journalism and is also a member of the staff of the Ohio State Lantern, daily campus newspaper.

Miss Birch was also named vice-president of the sorority at the banquet. She is the winner of the Vandewater Poetry prize for 1928. Apes and Peacocks is published monthly by members of Chi Delta Phi sorority.

### 600 To Take Exams

Columbus, O., June 4.—More than 600 persons have applied for permission to take the regular state bar examinations to be conducted at Memorial hall here on June 26 and 27. Seba Miller, clerk of the Ohio supreme court, announced today.

## Allen Breaks World Pole Vault Record; Stagg Selects Him For Olympic Tryout

Lowell Emerson "Little Rib" Allen, 18-year-old Salem High school lad is the new interscholastic pole vault champion of America.

Allen won this title and the right to try out for the U. S. Olympic team in the final tryouts at Harvard, Cambridge, Mass., July 5 and 6, by clearing 13 feet 3-16 inches in the vault in the national interscholastic field and track meet at Stagg field, Chicago, Saturday, winning first place in the event and establishing a new world's interscholastic record.

Following his record-breaking vault, Alenzo A. Stagg, one of the leading sport authorities in the country, assured Coach W. J. Springer that Allen would be given a final Olympic tryout. He is one of the three athletes chosen for that honor from the winners in the meet, and the second of two high school

athletes in American to be given the trial in the pole vault in the history of the Olympics.

Roesler Is Sixth  
Captain Keith Roesler, topping 12 feet, won sixth place in the vault, giving Salem High 11 points for 14th place in the meet.

The two local lads won these honors in a field of 28 picked vaulters, the country's best.

Joe Pasco and Ted Van Campen, the other pair of Salem High athletes picked by Coach Springer for the Chicago meet, narrowly missed getting into the point column in the javelin and half mile run.

Not a shadow hangs over Allen's accomplishment. In every vault he was supreme, missing only once, and that a height almost two feet lower than his best mark. The mark was established in the presence of world famous authorities on the sport. This assures for his mark

recognition as an official record. Papers were taken out immediately after the end of the event to assure its recognition, and signed by the officials of the meet.

Missed On Early Height  
Rib's first and only miss came at 11 feet 6 inches, but it was made on his next attempt. Roesler cleared every mark until 12 feet six, which he failed to make. The mark was cleared by five other lads, who promised to press Allen to the limit for first place. Officials of the meet stated that it was the most closely-fought pole vault competition in the history of the meet. Allen's feat, they said, is without parallel in interscholastic history.

Two cautions were still with Rib at 12-10. Hoffman of Ford, Kans., and Gibbons of Fort Collins, Rib cleared it easily, but the others fell out. The bar was first raised above the world's record, standing at 12

feet 10-1/2 inches, made by Tommie Warme while at Kokomo, Ind., in 1927. This was cleared on his first try.

Standards Too Close  
His next vault was above 13 feet, the bar standing at 13 feet 4 inches. After making it on his first trial, actual measurement showed it to be 13 feet 3-16 inches.

Thirteen feet 5 inches was tried next, but he missed three times. At each vault it appeared that he was over, but his body knocked the bar off coming down, as the standards were set too close to him for the height.

Pasco's best recorded throw in the javelin was 138 feet 5 inches, or inches short of sixth place. Van Campen was unable to do his best in the 330 due to a bad stomach, but under normal conditions might have placed.

## AVIATRIX BOUND FOR LONDON

### BOSTON GIRL IN PLANE WINGING WAY EASTWARD

Complete Second Leg Of  
Flight Over Atlantic;  
Stultz Is Pilot

Trepassey Bay, Newfoundland, June 4.—The trans-Atlantic plane Friendship bearing Wilmer Stultz, Miss Amelia Earhart and Lou Gordon arrived here from Halifax, N. S., at 2:28 o'clock p. m., local time.

Halifax, N. S., June 4.—The trans-Atlantic plane Friendship, carrying Miss Amelia Earhart, Wilmer Stultz and Louis Gordon, hopped off at 9:30 a. m. daylight time, for Trepassey, Newfoundland, on the second leg of its trip to Europe. Weather conditions were perfect.

Three flyers were in high spirits, and confident of their ability to guide the huge three-motored plane across the north Atlantic. They made an unexpected stop here yesterday because of fog which covered the remainder of the route to Trepassey, where they had intended to make their first stop for fuel. Pilot Stultz brought the plane, which is equipped with pontoons, down on the harbor waters in a perfect landing, after a successful flight from Boston, the starting point of the expedition.

The distance from here to Trepassey is about 250 miles. From there after inspecting their engines and refilling their tanks, the fliers will take off over the long water jump. If conditions are favorable, the take-off from Trepassey may be later today.

Halifax, N. S., June 4.—With England as her ultimate destination, the huge tri-motored monoplane Friendship, piloted by Wilmer Stultz, and carrying Miss Amelia Earhart, a well-known aviatrix and social worker of Boston, as co-pilot, and Lou "Slim" Gordon as mechanic, was to take off from here today for Trepassey, N. F.

Equipped with pontoons, the (Continued on Page 4)

### ATTENDANCE OF TWO IS PERFECT

Graduates Did Not Miss  
Day During Their Four  
Years In School

Francis Janek and Leanna Lied-er, graduating members of the class of 1928, were the only members of their class having a record of perfect attendance during their four years in school.

The announcement was made in the special assembly at the High school auditorium this morning by W. F. Simpson, principal.

Charles Bennett missed only two days during the four years. Ruth Moff, Harry Uleny, two and one-half days. William Bowers was absent three days in the four years. Others having good attendance records are Dorothy Bodendorfer, three and one-half days absent; Bertha Zellars, three and one-half days; Lawrence Fisher, four days; Lena Severn and Hazel Beck, four and one-half days.

### Just Like Amelia. Is Comment Of Uncle

Kansas City, June 4.—"Well, now, that's just like Amelia." This was the comment today of A. M. Earhart, uncle of the latest American girl to attempt a trans-Atlantic flight, who lives here.

"She always was a spunky little thing," said Earhart.

## Will Nominate Coolidge Unless He Forbids It

Charles Hilles On Ground at Kansas City to  
Lead Movement To Draft President

BY GEORGE R. HOLMES  
Kansas City, June 4.—The name of Calvin Coolidge, quite probably will be presented to the Republican National convention here next week and voted upon—unless and until the president, by some positive definite action, forbids it.

This much seemed assured today as the G. O. P. elders gathered in Kansas City and got down to the actual work of the convention, the first of which is the settlement of the perennial quarrels among the blue- and white and the black and tan of the Democratic south.

The "draft" Coolidge whether or not movement reached Kansas City in the person of Charles D. Hilles, the New York National committee-man, who has been the chief rallying post for the anti Hoover forces of the east.

Like a sentinel pine Hilles stood out against the gale like winds that have blown many of the other leaders into the Hoover camp. He may have swayed at times, but he has never fallen.

Who will present the magic name of Coolidge, if it is to be formally presented to the convention, who will lead the fight in the open and behind the scenes, Mr. Hilles did not say, but he appeared quite confident that when the balloting comes ten days hence there will be a lot of votes to be added in the column that carries at its masthead the name of Calvin Coolidge.

The only way in which this can be prevented, in the opinion of Mr. Hilles, and incidentally some others, will be for the president to flatly put his foot down. Mr. Hilles doesn't pretend to know whether that will be done or not, nor do any of the other leaders here pretend to know, and in this latter group are the somewhat apprehensive managers of Herbert Hoover.

There are reports, persistent enough but not confirmable, that Mr. Coolidge already has prepared for such a contingency as his name being presented to the convention. There are reports that he has written a letter which has been entrusted to a "spokesman" and which is to be read to the convention when and if his name is presented. Almost everyone in Kansas City has (Continued on Page 4)

### 10 MEET DEATH ON OHIO ROADS

Heavy Traffic Toll Over  
Weekend In State Despite  
the Weather

Unsettled weather over the state generally during the week end had little effect on traffic, and yesterday's death toll because of auto accidents was heavier yesterday, and Saturday than for several weeks.

Dover—Mary George, 5, killed when car backed over her.  
Hamilton—Lavard Klein, 62, and E. J. Fuller, 50, dead as car goes off road into telephone pole.

Washington, C. H.—Three killed as train hits automobile. The dead are Ray Heistand, 30; Robert Kennel, 8; and Dean Kennel, 6. H. T. Heistand, 65, seriously injured, may die.

Newark—Edward Baker, 63, killed as two cars collide as one turns on road.  
Cleveland—George Poppyk, 17, struck and killed by auto while riding bicycle. George Singer held by police on charge of manslaughter in connection.

Wallace Redd, 3, killed when caught between two parked cars into path of northbound auto.  
Canton—Gilbert Carter, 18, killed when lost control of motorcycle and ran into auto.

An auto driven by Mrs. Arthur Mullins and containing several children was overturned Saturday afternoon when it struck a rut on a road north of Albany. Several occupants of the car were treated for minor injuries by physicians.

Among the children reported injured were Virginia Harris, Polly Silver and Marion Mullins.

"She always was a spunky little thing," said Earhart.

## BEATRICE MAY HAVE WANDERED AWAY IS BELIEF

Go Back to Early Theory  
As Investigation Hits  
A Stone Wall

That Beatrice Rosenbaum, Youngstown girl who was found dead in a ravine northeast of the city a week ago Sunday, may have wandered, delirious, in the immediate vicinity for several days before she died, is an early theory advanced again by some who are investigating the mystery.

A child in her condition—mentally deficient, mute, subject to nervous attacks of indignation and having an apparent mania for disappearing—might have been in great fear, after being brought to the ravine, and would not have sought aid at any nearby farm, it is pointed out.

Becoming partially delirious with lack of food and exposure, she unlaced her shoes and threw away the laces. Then she took off her stockings and dropped them where Patricia Ralph Steffer and William Reardon found them.

Later she again put on her shoes for a time, to help her get into the place where she was found. But before she died she must have slept in her coat, found some 50 feet away from the little ravine. As her delirium increased she took off most of her clothes.

May Have Been Given Lift  
This, in substance, is the way some of the investigators account for the child's last days and hours. It was an abduction, he was not with her for a considerable time before her death, it is believed.

Another theory advanced is that the girl secured a lift after leaving home of her own accord. That she did not tramp all of the miles from Youngstown to the Egypt rd., is practically certain. But investigators are unable to believe that, providing she did get a lift, the motorist would not inform police in order to help solve the case. It is possible (Continued on Page 4)

### Brokers Released

Ossining, N. Y., June 4.—Edward W. Fuller and W. Frank McGee, bucket shop brokers, sentenced to Sing Sing prison in connection with a \$400,000 scandal when their business failed seven years ago, will receive \$45 each and a free railroad ticket to New York City when they are released on parole on Wednesday.

### UNITY WOMAN DIES OF BURNS

Stove Polish Explodes;  
Mrs. John Baker Is  
Fire Victim

Unity, June 4.—Mrs. John Baker, 59, died at her home here Sunday of burns received Saturday when a bottle of stove polish exploded in the home.

Her clothing was burned from her body and her son by a previous marriage, Bert Jackson, 30, was painfully burned about the hands and arms while attempting to extinguish the flame.

Besides her husband she leaves seven children and 18 grandchildren.

Funeral service will be held at the home Tuesday at 2 p. m. in charge of Rev. Paulk. Burial will be in East Palestine cemetery.

### Lee Defeated For Brotherhood Chief

Cleveland, June 4.—W. G. Lee, president of the Brotherhood of Railroad Trainmen for the past 19 years, went down to defeat here today in the tri-ennial election of the organization.

A. F. Whitney, general secretary and treasurer of the Brotherhood, was elected to succeed the veteran president by a very close vote according to information from the general headquarters of the Brotherhood here.

### Artists Choice

Miss Mildred Meyers of Elkhart, Ind., has been picked the most beautiful young woman of Cornell college, Mount Vernon, Ind., by Norman Rockwell, artist.

## CLASS PRESENTS SET OF LIGHTS TO THE SCHOOL

Basketball, Track and Debate  
Letters Awarded  
At Final Assembly

Walter Deming, president of the graduation class presented the annual gift of the Senior class to the High school in the final assembly of the school year this morning.

Deming represented his class in presenting the school with a set of decorative lights for the front of the High school building. The gift was accepted in behalf of the school by James Scullion, president of the class of 1929.

Letters were awarded to members of the track team, boys' and girls' basketball teams, debating teams, and the cheer leaders. Awards were also presented to outstanding students in typing.

The letters to members of the athletic teams were presented by Coach W. J. Springer and Miss Margaret Tindley, girls' athletic director.

Basketball Letters  
Basketball boys receiving letters were: Captain Lowell Allen, Evan Jenkins, Paul Fogg, Dick Harwood, James Scullion, Herman Litty, Glenn Whinnery, Fred Guilford, and Robert Talbot, manager. Ed Sidinger, captain-elect, was not present to receive his letter in either basketball or track.

Girls receiving basketball letters were: Bertha Hasey, Hazel Beck, Bertha Zellars, Melba Barnes, Bertha Kent, Ethel Bodo, Winifred Baily, and Margaret Atkinson, manager.

Reserve letters were also awarded to members of the "black" varsity: Paul Sartick, James Wingard, Ed Schilling, William Smith, Joe Pasco, Albert Baltimore, Keith Roesler, and George Seidner.

Margaret Atkinson, Bertha Mae Hasey and William Chalfant were (Continued on Page 4)

### CLEVELAND MAN SLAYS ROBBER, WOUNDS SECOND

Cleveland, June 4.—Philip Ollick, 24, is dead here today and a man who gave the name of Harry Wise was suffering from wounds received when three men entered the home of Savo "Steve" Vassileff shortly after midnight, according to police.

Vassileff said the men entered the kitchen of his home and forced him into a corner demanding money. Vassileff said he ignored the demand and grabbed a weapon from one man's hand at the same time drawing his own revolver from beneath a sweater. He opened fire and Ollick and Wise fell, he told police. The others fled.

### \$18,685 SPENT IN WEST VIRGINIA

Washington, June 4.—The Hoover presidential primary in West Virginia cost \$18,685, Harry C. Woodward, of Spencer, the state manager for Hoover testified today before the senate presidential campaign fund committee.

## SOUTHERN CROSS TRIES TO DODGE CLOUDS OF RAIN

Naval Station at Samoa  
Gets Message Weather  
Is Very Changeable

CONDITIONS ARE  
NOT IMPROVING

Plane On Second Leg Of  
Its Hop to Australia,  
Suva Next Stop

Honolulu, T. H., June 4.—The monoplane Southern Cross on the last leg of its perilous 3,100-mile flight from Hawaii to Suva, Fiji Islands, ran into bad weather early today 800 miles from its goal.

A message to Radio Corporation here today direct from the plane gave its position at 5 a. m. Island time as latitude 7-6 south; longitude 174 west.

"Eight hundred miles to Suva," added the message. "Bad weather." Conditions were not improving according to a message from the plane intercepted by Radio Corporation at 6:45 a. m.

The plane began calling N. P. U. the American naval radio station at Tutuila, Samoa, and sent that station the following message:

"Hello Samoa. How do you get us. Have poor flying conditions. Weather very changeable. Dodging rain clouds. Flying circles some times."

It was recalled that Captain Kingsford-Smith had planned if it became absolutely necessary to make an emergency landing at Upolu in the British Samoan group. This group is about 2,500 miles from Hawaii. The message calling the American naval station, however, gave no hint that the plane was considering such a landing.

Honolulu, T. H., June 4.—On to Suva.

Apparently confident of success, the Southern Cross, was today on the last 1,000 miles of its 3,100-mile hop across the south Pacific from the Hawaiian Islands to the Fiji group.

Had the plane faltered or the fuel supply run short, Captain Charles Kingsford-Smith, commander of the arial adventure, had planned to make an emergency landing on the Phoenix group, a few tiny specks, representing the only land on the path of the airmen on their long journey.

The lands were reached and (Continued on Page 4)

## C. D. RYMER DIES IN PITTSBURGH

Man Prominent In Colum-  
biana Succumbs In Hos-  
pital Sunday Night

C. D. Rymer, 58, prominent citizen of Columbiana, died of erysipelas Sunday night at Mercy hospital, Pittsburgh. He had been ill for a week.

Mr. Rymer, who was born two miles east of Columbiana, had always lived in that vicinity. He had an interest in the Enterprise Manufacturing company, Columbiana, and was superintendent for the company at the time of his death. He had been with this company for 28 years.

He had been active in church work, being an official in the Methodist church and Sunday school. He was a member of the Masonic fraternity at Columbiana.

Surviving are his widow, Ella Rymer, one son, Russell, New York City; one daughter, Mrs. J. M. Lichty, Pittsburgh; three sisters and two brothers, Misses Hala and Ola Rymer, of near Columbiana; Mrs. Ben Lower, of Columbiana; Thomas Rymer, of Berkeley, Calif.; and Lyle Rymer of near Columbiana.

The body was brought to Wick Ave's funeral home, and will be here until 2 p. m. Thursday when it will be removed to the Methodist church, where the funeral service will be held. Rev. Mr. Jones, pastor of the church, and Rev. Mr. Peters, of Cleveland, a former pastor, will be in charge; interment in Columbiana cemetery.

## DIES OF RABIES IN E. LIVERPOOL

State Chemists Examine  
Head of Dog Which  
Bit Woman

Columbus, June 4.—Chemists of the state department of health laboratories today were analyzing the brain of the victim sent from East Liverpool, following the death of Mrs. Alma H. Whitehill, 26, who died Saturday three weeks after being bitten on the cheek by a police dog.

Soon after the wound was inflicted, it was said, Mrs. Whitehill was given the Pasteur treatment to guard against rabies, but she was taken ill Thursday.

The animal was shot soon after the incident.

## MARRIAGE AND DIVORCE

Results of the eighth federal investigation of marriage and divorce—that for the calendar year of 1926—has just been distributed by the bureau of census. This report, which contains some rather startling figures, and presents a most serious situation in the relation of marriage and divorce, represents the fifth consecutive annual tabulation of the subject from a nation-wide angle.

For instance, the number of marriages reported in 1926 show an increase of 12 per cent over 1925 for the entire country, while the number of divorces reported for the country-at-large during the same period show an increase of 3.1 per cent.

Thus, last year in the entire United States, the percentage of divorce over marriage was more than two to one. And in this connection it is interesting to note that the chief causes of divorce in the country as a whole are cruelty, which leads the field by many thousand, and desertion which ranks second.

In Ohio in 1926, 55,147 marriages were reported to the census bureau, as against 52,317 for the previous year. These figures represent an increase of 2,830 marriages, or a 5.4 per cent increase for the twelve months.

But during the same period in Ohio there were 13,976 divorces granted, as against 13,666 for 1925. This represents an increase of 310 in divorces granted, or 2.3 per cent.

It will be seen from a study of these figures that the ratio of marriage over divorce in Ohio is almost three to two, but this is not true of many other states. The ratio in some other sections of the country is practically reversed, divorce far outnumbering marriage.

Divorce granted in 1926, one learns from the report, as compared with 1925, increased in the entire United States, in six of the nine geographic divisions and in 21 of the 48 states. The increase was especially large in Vermont, New Jersey, North Dakota, Kansas, Maryland, Florida, Kentucky and California. The decrease was noticeable in New Hampshire, South Dakota and the District of Columbia.

The number of divorces granted per 100 marriages performed in the United States, has increased from 5.5 in 1887, to 15 in 1926, the increase being much more rapid during the decade of 1917 to 1926 than in the earlier part of the 40-year period covered by available statistics.

## DO NOT BE MISGUIDED

Don't be misqu岸ied by the efforts being made to humanize business.

You should not expect a business man to be swayed from principles he must follow in order to meet the competition he is fighting.

There must be production at the least possible cost and there must be superiority in the article offered for sale.

If you help produce goods you are employed as a part of the equipment necessary to manufacture the product on the least expensive basis possible.

If you can't meet the requirements as well as some other work man you should not expect sentiment to hold your job for you.

There are exceptions, of course. When a worker has given many years service to his concern, as a reward for past efforts he is favored, perhaps.

But if you have not had this long period of service to bind you to your employers, you must expect to deliver the goods, and continue to deliver no matter if wages are not what you wish.

Business has to pay the employer or he cannot hire helpers.

You must be a profitable producer in his organization, if he retains you.

Maryland had a spring snowstorm the other day. One of these days a person is going to get sunburned and that will be news—Rockford Star.

## What Others Say

## TAKING SLANG SERIOUSLY

Mrs. Stanley Baldwin, wife of the British prime minister, said at a recent meeting of the Women's Conservative association in Huddersfield, Eng., that "flapper" was a silly word used by "medieval people with stationary minds" and that the term was as appropriate to a girl of today as "chapper" would be for the modern young man.

Whereupon an English newspaper took up the discussion by presenting possible derivations of the word "flapper" which, contrary to our idea that this word has been coined since the war, was a product of the late 19th century.

"Some have it that the victims first received their label in a friendly, if slightly derisive spirit, that likened their gait and demeanor to that of the young wild ducks and partridges to whom the word properly applies," says the newspaper. "And some more probably identify it with the piglets that in Victorian days swung rhythmically upon the napes of the necks of perambulating young womanhood. But the pig-tails have gone; and whatever the idiosyncrasies in department of the young woman of today, her gait has indisputably more of the sinuosity of the serpent about it than the waddle of the duckling. Yet such is our conservatism in slang that she seems doomed to bear to all eternity an epithet which is robbed of all recognizable association, and not all the 'cuties,' the 'honeys,' and the 'babies' that the onward marching slang offers by way of substitute can save her."

Mrs. Baldwin may be right in saying that "flapper" is a silly word. But the English newspaper is not correct in suggesting that American slang has offered "cutie" "honey" or "baby" as a substitute for "flapper." A flapper may be any one of those three, but it does not follow that a "cutie" or a "honey" or a "baby" in the slang sense, is necessarily a flapper. In fact, when they get to be cuties and babies, the girls have probably left their flapperhood behind them.

But if the word "flapper" annoys Mrs. Baldwin and others, they are in for a long period of disturbance. For "flapper" has long since passed out of "slangland" into the English language. It is too rare and perfect a word to be discarded. It is one of those so subtle words that instantly presents a mental picture of the person it is intended to describe—the ungainly, immature girl who adopts a veneer of quasi-sophistication.—Detroit Free Press.

## THE SOLID MAN

Maxims often go wrong, but not so in the case of William Muldoon, who has just turned into his 83rd year. If he had not fallen the other day, when jostled by a crowd, he would have taken 83 in his stride as he has taken everything else. Temporarily, he is perforce spending some time abed. But that does not alter the fact that he is a living proof of maxims. For since he was a lad he has taken care of his body and his mind, that both might grow and remain strong and clear. No finer specimen of physical well-being or public service in his particular line can be found in these parts.

Until he was at least 80 he could out-exercise almost anybody one-third his age. Muldoon's, at White Plains, became the place not to go unless one really meant to adopt the ascetic form of living. So long as "The Solid Man" runs his health farm no favors will be shown anybody on any account, and he has had under his roof at one time a railroad president and a future president of the United States, puffing and molling like the bank clerks they were puffing and molling with. Mr. Muldoon looks very serious, and professional-looking he relaxes seldom, but close observers used to see a glint of humor in his three gray eyes when he was "tossing the medicine ball" to some young model for Phidias, just out of college football and up to the farm to keep fit. In a short while the aged man would have the youth so winded that he could not return the ball. "So you call yourself a college athlete, hey?" Muldoon would say, and stride away.

In youth a soldier, a wrestler, an actor, of late years the Spartan archon of physical training and imperious member of the state athletic commission, Mr. Muldoon has come to his great age with the respect and affection of the community and the absolute adoration of the "students" whose lives he has made so beneficially but painfully monastic.—New York Times.

## Offer Large Prizes In Poster Contest

Chicago, June 4.—An International Poster Contest for the Chicago's World's Fair, to be held here in 1933, was announced today by Chauncey McCormick, the chairman of the contest committee of the fair association.

Prizes totalling \$4,500 will be awarded winners in the contest, which will be open to professional and amateur talent throughout the world, according to McCormick's announcement.

All posters, McCormick said, must be submitted to the World's Fair committee by September 1, 1928. Awards will be announced "not later than January 1, 1929."

Artists and designers from all parts of the world are expected to send in posters competing in the contest.

First prize will be \$1,500, second prize \$500, third prize \$250, fourth prize \$150 and fifth prize \$100. Another \$1,500 will be awarded to competing artists residing outside the United States, should the committee see fit, otherwise that amount will augment the regular prizes, at the judgment of the committee.

Specific details of the contest may be had, McCormick said, by application to the World's Fair committee at Chicago.

Charles Wesley, the famous minister, was the 18th and his brother John, the 15th child in the family.

## BAD EATING HABIT ALSO EFFECT SLEEP

By Royal S. Copeland, M. D.  
United States Senator from New York, former Commissioner of Health, New York City

There is no greater boon than the ability to sleep well and no greater curse than light and fitful sleep. You may be a millionaire, but unless you can sleep you will soon be a wreck.

The other day I read about a murderer who surrendered himself to the authorities. When asked why he said he must have some sleep. There seemed no particular remorse so far as the murder was concerned, but the fear of discovery deprived him of sleep and that affliction drove him to the sheriff.

Loss of sleep, or insomnia, as the doctors call it, is one of the exciting causes of insanity. Without sleep the nervous system breaks down. To keep the brain and nervous system in working order there must be regular hours of rest and sleep.

Many things are responsible for insomnia. There is no greater factor than worry. One of the earliest lessons you should learn is to cast off your worries. Never take them to bed with you. You will get no refreshing and restoring sleep if you do.

Improper diet and irregular habits are destructive of refreshing sleep. Constipation permits the development of poisonous substances which damage the nervous system. At least seven persons out of ten who have sleepless nights will be found to suffer constipation. Needless to say, habitually wrong diet and improper manner of living frequently result in constipation and consequently in insomnia.

If the bad habits of eating or of living result in undernourishment,

## Twenty Years Ago

(Issue of June 4, 1908)

Rev. Dr. John J. Wallace, of Barnesville, formerly of Alliance, has been elected editor of the Christian Advocate, a Methodist paper published at Pittsburgh.

Residents of McKinley ave. are asking for a new pavement for that street.

W. C. Barden and family, who recently purchased the Boone farm north of Salem, moved from Beaver to their new home Wednesday.

Watermelons are on the market.

Miss Iva Mander, this city, has accepted a position as stenographer in the office of Atty's Diel and Brown, in Alliance.

Miss Florence Farr, of Salem, who has been attending school at Oberlin has been given a position in the High school at Lisbon.

The grand formal opening of the Globe auditorium as a summer theater will be held Thursday, Friday and Saturday.

The High School Athletic association has elected these officers: President, Charles McGonner; vice president, John Whinnery; secretary, Donald Hise; treasurer, Wilbur Smith; supervisor of events, Karl Whinnery.

Samuel Borton, of Valley who was nominated for governor on the Socialist ticket, has declined the honor.

Custom duties of 60 per cent must be paid on the \$340,000 pearl necklace imported by Mrs. William B. Leeds.

The fifth conference of the Ohio state board of health will be held in Cleveland June 18 and 19.

The Salem Choral society will disband for the summer and reorganize in September.

Dr. and Mrs. B. W. Spear arrived at Garfield Wednesday from Pasadena, Calif., and will visit their son. This is the first time in 13 years that they have visited in Ohio. Mr. Spear is 83 years old and his wife 76. The couple made the trip alone.

naturally the nervous system suffers. In consequence, inability to sleep may follow.

Excessive smoking and the use of drugs that act upon the heart may cause insomnia. Whenever the heart is disturbed in its regular and normal action the sleep is likely to be affected.

Of course, noise will break the rest of the soundest sleeper. He may not be conscious of its influence, but his rest is sure to be disturbed if he sleeps in a noisy place. Poor ventilation is another disturbing factor. The sleeping room must be properly aired or the sleep will not be refreshing.

If you suffer from insomnia let me beg of you not to take drugs in order to get your rest. Many a life has been ruined by resort to sleep-producing drugs. Sleeping powders, sleeping potions, sleeping drops are all dangerous. They lead to drug addiction and to conditions far worse than insomnia.

Try a tepid bath. Get into a tub of water only a degree or two above the temperature of the body. Stay there for ten minutes or even half an hour. Then dry off without vigorous rubbing and go to bed.

Sometimes a drink of water or a glass of warm milk will promote sleep. A full meal is harmful, but a very light lunch may be helpful.

Deep, regular breathing seems to induce sleep sometimes. Sleeping in the open air, or with the windows wide open, will bring slumber when the ordinary atmosphere fails.

Honest fatigue is the best remedy. Exercise in the open air until you are really tired will do wonders.

It may be necessary to read for an hour or so to get your mind off your worries. But the best rule is to make the bed a place for sleeping and go to it determined to slumber.

## Answers to Health Queries

E. B. Q.—What will help a hay fever patient? 2.—Is this trouble confined to the nervous type?

A.—The treatment should be advised after the patient has been tested to determine which weed or flower aggravates the condition. 2.—Not necessarily. Be sure there is no catarrhal condition which may be causing some of the trouble. For further particulars send a self-addressed, stamped envelope and repeat your question.

## The Stars Say—

For Tuesday, June 5.  
By GENEVIEVE KEMBLE.

THERE are testimonies of conflict and some adverse positions in this day's planetary operations. Although there may be some sudden visitations, possibly of a whirlwind nature, causing change of environment and business may assume precarious aspects, yet on the social or affectional side there may be pleasurable if sensational, demonstrations. There is an element of secrecy in affairs, but all may result in substantial benefit.

Those whose birthday it is are on the eve of a year of abrupt and important change or travel. While business may assume hazards, personal affairs may be spectacular or unconventional. With caution, substantial returns may be engineered. A child born on this day may be disposed to "strategem and spoli" as well as intrigue and unorthodox adventures. It may have a spectacular career on its personal adventures.

The rise of man is endless. Be in hope; all stars are gathered in his ascension.—Mackham

## Find New Metal To Make Light Planes

Berlin, June 4.—A revolution in the construction of aircraft is predicted by aviation experts as a result of the discovery of a new manufacturing process by which, different metal can be manufactured in large quantities.

Electron metal is just as durable, but is 40 per cent lighter than aluminum. This is of the greatest importance to aviation, because it reduces the dead weight of the craft and enables it to carry that much more freight and fuel. The crew of the "Bremen" which flew from Baldonnel to Greenly Island had even peeled the oranges it took along as food in order to take a few more drops of fuel along, and these additional few drops proved its salvation.

The discovery of the new process has been made by the I. G. Farbenindustrie, the great German dye trust, whose chemical laboratories have brought forth more than one revolutionary product. It has constructed special plants at Buerfeld for production of this metal.

Electron metal was discovered before the war and has already been used in the construction of auto and airplane engines. Until the discovery of the I. G. Farbenindustrie process, however, it was impossible to produce this metal in commercial quantities.

The basis of the new metal is magnesium.

## RAISE TURTLES ON U. S. CACTUS FOR GOOD FOOD

Experiment Also May Be Instrumental in Saving the Species

San Diego, Cal., June 4.—An experiment in raising giant land turtles for their food value, as well as to save this particular species from extinction, has been started by Dr. Charles H. Townsend, director of the New York Aquarium. Dr. Townsend recently brought to the San Diego fifty specimens of the giant tortoise of the Galapagos Islands. Half of them were left in the San Diego Zoo and half taken to the Desert Zoo at Tucson, Ariz. Dr. Townsend also shipped 130 specimens from Balboa, Panama Canal Zone, to New York, where they will be distributed to eastern zoos.

"Several years ago the New York Zoological society received information that the giant land turtles of the Galapagos Islands were rapidly being exterminated," said Dr. Townsend. "Accordingly, a few months ago, I was sent at the head of an expedition to get some of these turtles and bring them to the United States."

**Supply Dwindling**  
"On the Galapagos Islands, which are about 800 miles southwest of the Canal Zone, we found that these turtles already had been wiped out by wild dogs and hogs on ten of the twelve islands. On the two other islands on which they still exist, the native hunters had to go far inland and up into the mountains to get specimens for us."

"From what we learned of the tortoise's habits, we decided that it should thrive in the southwestern part of the United States. It apparently is not affected by altitude, and it can thrive on cactus and similar desert plants, although it eats almost any kind of vegetable. In fact, we found several of these tortoises feeding on a species of spineless cactus which apparently has been growing wild on the islands for years before Luther Burbank began his spineless cactus experiments."

"The food value of the Galapagos tortoise has been overlooked in recent years. But a hundred years or more ago, the whalers in the South Pacific ocean carried the tortoise away from the islands by the thousands, storing them in the holds of their ships, where they could remain for months without food or water, to be killed as needed."

**Gain Weight Rapidly**  
"This tortoise grows to an average weight of 400 pounds, although we know of several that have weighed 700 pounds. During its early years, it doubles its weight annually. One we have in the New York Aquarium grew from 50 to 400 pounds in fifteen years."

The expedition to recover these turtles was aided by the U. S. Bureau of Fisheries, which lent the U. S. S. Albatross for the voyage from the Canal Zone to the Galapagos Islands. Three weeks was required for the voyage.

According to Dr. Townsend, the present experiment, besides saving this species from extermination and, it is hoped, demonstrating its great food value, will give zoological authorities an opportunity hitherto lacking of studying its habits under ideal surroundings.

## Parachute Schools For Travelers To Be Necessary Soon

Washington, June 4.—The American travelling public will have to go to parachute schools one of these days as a part of its general education.

The expansion of commercial airways throughout the United States and the constantly increasing travel in the air by persons owning their own planes has brought about the necessity for a widespread knowledge of the use of the parachute, army aviators declare.

The parachute, thus far the only known and tested safety device for those who are stranded high above the earth in a frail machine of flapping wires and struts, is as important as the airplane engine, aviators say. When the engine fails the parachute is the only resort left. As soon as the general run of aerial passengers realize the parachute makes their safety in the air practically certain, army fliers say, commercial aviation will show a far greater expansion of passenger carrying air lines.

The most important advantage of parachute practice, say those who have made the leap, is that it instills confidence in the jumper. "When people tell you stories of chutes that don't open," declared one officer, "take it with a grain of salt. There are ways and ways to get killed in a parachute, but it is always open for you if you pull the ring."

## Denver Entertains Disabled War Vets

Denver, June 4.—An elaborate program of entertainment is being arranged for delegates to the national convention of the Disabled American Veterans of the World War that convenes for six days here starting June 23, next. It is estimated that 6,000 disabled ex-servicemen will take part.

It will be the first time that any organization made up of Uncle Sam's ex-fighting men will have pitched national convention camp in the Rocky Mountain region. President Coolidge has been invited to the convention. General Frank T. Hines, director of the U. S. Veterans bureau, will attend and is expected to be one of the principal speakers.

**PUBLIC LIBRARY**  
OPEN EVERY WEEK DAY  
FROM 9 A. M. TO 9 P. M.

## American Legion News

A weekly column of news about the American Legion and its activities is inaugurated today, through the aid of members and officer of Charles H. Carey post.

Several thousand disabled emergency army officers and their families will receive benefits by legislation which has been an objective of the Legion since the early days of its organization. It was passed by both houses of congress May 11, over President Coolidge's veto.

The disabled emergency army officers were the only ones of nine classes who has not been granted this legislation. Such provision had been made for similar officers in the navy and marine corps soon after the end of the World War.

Many local veterans helped in the fight on this bill by writing senators and congressmen. A number of Salem and Youngstown disabled emergency officers are entitled to the benefits.

The executive committee of Charles H. Carey Post, American Legion, will meet at 8 p. m., Monday to discuss plans for summer program. Regular post meetings, the second and fourth Monday of each month.

Tuesday evening, June 12, the auxiliary will entertain the Gold Star Mothers and the legion members at a covered dish supper.

**Forty and Eight Fete**  
Cleveland "gang" will be hosts at spring promenade. Saturday, June 9 will be a great day in Cleveland for voyages of 40 Hommes et 8 Chevaux voitures in and near that city.

Sam H. Deutsch, chef de gare of voiture No. 11, has invited Hommes from every voiture within a hundred miles.

Program will open at 12 noon with luncheon at Hollenden. At 2 p. m., parade to Dunn Field to watch Yankee-Indian game. At 6 p. m., dinner at Hollenden, their wreck and show.

## Port Clinton and State Notes

National post is to organize a drum corps.

Jefferson Post of Louisville, Ky., largest legion post with 2,600 members; Omaha, Neb., next with 2,400.

Twenty-two thousand managers are members of the legion; 82,000 clerks, 102,000 farmers, 44,000 mechanics, 13,000 professors and teachers, 27,000 doctors, 16,000 lawyers, 14,000 engineers and surveyors and 5,000 real estate men, not counting the other hundred or two occupations.

Toledo has 15 legion posts; Cleveland 32; 30,592 veterans are buried in eight European cemeteries.

## Style Counterfeiter Being Sought Thru Cooperation of U. S.

Paris, June 4.—The United States will be asked to co-operate with France in stamping out style counterfeiters, according to Monsieur Louis Dangel, the president of the Association for the Defence of Plastic and Applied Arts.

Protective legislation insofar as France is concerned has been proposed in Parliament but Monsieur Dangel desires to organize French dressmakers, to bring about more universal action.

"Today the association I head proposes to form a society of creators of style that would control and sell the reproduction rights of fashion for drawings, photographs and motion pictures, thus enabling the original designer to profit to the full extent of the popularity of his work," said Monsieur Dangel, in an article in the "Journé Industrielle," written by D. Lenieff, a dressmaker.

Lenieff added: "The audacity of counterfeiters attains its maximum in foreign countries, principally in America. A model, once sold by the house that created it, is re-sold several hundred times in patterns, bringing plenty of money to everyone except the man whose genius made it possible."

At pre-seasonal showings for foreign buyers Parisian dressmakers exercise strict surveillance to prevent copying but Monsieur Dangel believes there would be less style thieves and more profit for the industry if the dressmakers would forget their jealousies and swing into concerted action against counterfeiting abroad.

## Start New Bridge Over Beaver Creek

Construction of a temporary wood span over Beaver creek on the Lincoln highway at Lisbon, will be finished this week, and then the present bridge will be dismantled by Contractor Herman C. Armstrong. Armstrong has the contract for the erection of a double concrete arch bridge over the stream and the new contract is expected to be finished on or before Sept. 1. The new bridge will cost \$33,000, both state, county and federal funds participating.

## HANOVERTON

Erma Stockhouse and mother visited Mrs. L. J. Pollock Tuesday afternoon.

The Township Farm bureau meeting was held in Dungan school house Saturday evening.

Ellen Andre of Winona is spending a few weeks with Mr. and Mrs. Paul Reeder.

Many from this community joined the crowd who serenaded Mr. and Mrs. Marion Humpireys Monday evening.

Mrs. Hardesty returned to her home in Cleveland after spending a week with relatives here.

Mrs. Karl Winder was a Salem caller Thursday.

## ANGLO-AMERICA RELATION UP AT PEACE MEETING

Three Points Selected as Basis For Opinion To Be Moulded

London, June 4.—Improvement of Anglo-American relations is to be the principal subject of discussion at this year's National Peace congress convened by the National Council for the prevention of War, in London, on July 5 next.

As a basis for consideration the congress has selected the following three points upon which to inform public opinion:

1. The psychological reaction of the breakdown of the Coolidge Naval conference.
2. The Kellogg proposal for the renunciation of war as an instrument of national policy.
3. The vexed question of the freedom of the seas.

## Arbitration Treaty

During the next few months the council is concentrating on the question of a renewal of a more favorable basis of the Anglo-American arbitration treaty which is expiring.

Two ways in which it is proposed that treaty relations between the two countries may be improved are:

1. To secure a more inclusive treaty to replace the so-called arbitration treaty and (2) to open up negotiations for a multilateral treaty on the basis of the recent Kellogg proposal.

It is clear, the council states, that the text of the present treaty is confined to disputes of a legal character, and excludes all disputes which can be deemed to affect the vital interest, or the independence or the honor of the two nations.

## War Still Possible

The council further points out that even under the Bryan conciliation treaty, which provides for use of conciliation methods and a cooling-off period of twelve months, during which investigation and report may be conducted by an international peace commission, recourse will still remain open if the process of conciliation does not lead to settlement.

The negotiations between the United States and France make it clear, the council adds, that America is not prepared to enter into agreement with France alone for the outlawry of war. Presumably the same attitude would apply to Great Britain alone, or to any other individual country.

British public opinion in the views of the council would welcome wholeheartedly any American proposal to participate in a really responsible partnership of nations.

## COURT NEWS

the court will be placed in execution.

**No Special Grand Jury.**  
That the grand jury will be summoned into special session is now considered probable. The matter is now being given serious consideration by Prosecuting Attorney R. M. Brookes and his assistant John E. Bauknecht.

A few weeks ago it was not thought necessary to call the jury, but in the meantime a number of important cases have developed, and unless a session is ordered those now in the county jail and having been bound over from lower courts will have to remain there until September before the charges against them can be investigated.

It is probable that the jury will remain in session but a day or two should it be called.

## MAY SET MARK AS WET MONTH

Period Cold, Backward Reports Copeland, U. S. Weather Observer

The month of May was the wettest Columbia county has experienced in 35 years, reports Cooperative Weather Observer Lawrence H. Copeland of Millport.

The month was cold and backward and corn was still being planted up to the close of the month. The cats crop is declared to be better at this season of the year than on June 1, 1927.

The temperature and rainfall during May was below normal. Mr. Copeland has declared, as there were only three days during the month when the temperature was above 80. The low temperature was caused by the northerly winds, and the cold nights were due to these winds. The growth of corn, oats and meadows was practically at a standstill during May, and the prospects for a hay crop are poor at this time. Rain and warm weather are needed badly.

The mean maximum temperature for May was 69.3 and the mean minimum temperature was 40.5 with the maximum at 88 on May 4 and the minimum at 26 May 13. The greatest daily range was 46 degrees during May 2 and 3. Total precipitation for May was 2.06 inches and the heaviest in 24 hours was .53 inches May 19.

There were but eight clear days during May, 19 partly cloudy days and four cloudy days. Three thunder storms were recorded during May, these on the 17, 18 and 19. A light hail was observed May 26.

"You Always Pay Less Here"

## EACH FILM STAR HAS A FAVORITE "TEAR JERKER"

Crying Music Used While Sad Scenes Are Taken On Movie Lots

Hollywood, Calif., June 4.—When Tobani composed "Hearts and Flowers" little did he dream that he'd written what was destined in later years the champion "tear jerker" of the movie stars.

A "tear jerker" is studio parlance for music that will inspire tears for sad scenes in a film play.

Each star has her own favorite "crying music" or "tear jerker," but of them all, according to a survey of "inspiration music" made at one of the big studios, "Hearts and Flowers" scores the even hundred.

Every feminine player listing to her favorite crying music always adds "for Hearts and Flowers" to her listed preference. It is a general inspiration to tears.

Len Chaney admits it can make him cry.

"I believe it because the tune has been used so many years on the stage for sad scenes and that it has this universal appeal for lachrymose scenes," he said, "or else that the old stage producers picked it as the one tune best suited psychologically to inspire the most general woe. Anyway, as on the stage, it reigns on the screen today as the one sure fire piece of crying aid."

Marceline Day can cry most easily when "Rock A Bye Baby" is played—in fact the musicians sometimes play it for fun just to make her cry. Failing this—"Hearts and Flowers" is her next big bet.

Renee Adoree likes "Melody in F" by Rubenstein, for her weeping moment—but again, can do a good job on the Tobani classic.

Norma Shearer finds "Trauer" the baset incentive to lachrymal precipitation, with "Hearts and Flowers" a runner-up.

Joan Crawford places "Macushla" first as a crying aid.

Incidentally, "Macushla" is Herbert Brennon's favorite music while

working out a sad scene. But, he, too, weeps for "Hearts and Flowers." "Let the Rest of the World Go By," "Mother Machree," "The Berceuse from Jocelyn" and "Sewanee River" are other highly esteemed "tear jerkers" used on sets by the "inspirational orchestras."

The eyes have it. Smart chapeaux worn by screen stars and players this year are designed so that the eyes are conspicuous.

Renee Adoree, has selected a hat of beige chouquette with a draped crown and no brim at all. The line of the model follows the eyebrows so that the eyes themselves are revealed. This is by far the most popular type. The turned down brims are used only for special occasions.

The popular line for the evening decolletage has been reversed in Hollywood this year. Greta Garbo has introduced the fad of wearing her evening gowns high at the back and low at the front. The neck line may be either in a V or U in front, but the back is completely covered by material.

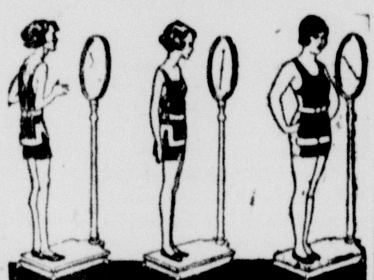

Miss Garbo has chosen a black chiffon velvet model studded in crystals to carry out the new vogue.

The normal waist line makes its appearance in the day time and evening mode.

Such stars and players as Aileen Pringle, Marceline Day, Joan Crawford and Eleanor Boardman are having all their frocks, with the exception of sports clothes, designed with the natural waistline paramount.

## INTERNATIONAL ROMANCE CRACKS

When the Earl of Northesk arrived in America, he admitted to ship news reporters that his marriage to Jessica Brown, former New York show girl, had reached the separation stage—with a divorce just around the corner. At the same time, the beautiful American girl allowed it to become known in London that her intention was to sue for freedom on the grounds of incompatibility. The two were married five years ago after a whirlwind courtship.

## SOCIETY

## O'Connell-Early

The home of Mr. and Mrs. Charles O'Connell, East Fifth st., was the scene of a pretty wedding, when their oldest daughter, Miss Blanche Puyé O'Connell, became the bride of Melvin H. Early of Lakewood, at noon Saturday.

Rev. C. E. Haworth, pastor of the First Friends church, officiated, using the ring ceremony. The nuptials were witnessed by the immediate families of the couple.

Palm, fern and bridal wreath were used to form an aisle from the hall to the center of the living room. Bouquets of flowers were used to decorate the home.

As the strains of the Bridal chorus from Lohengrin were heard, played by Miss Catherine Early, sister of the groom, the bride party descended the stairs, going to the center of the living room, where they stood under a chandelier from which was suspended a large pink and white bell where the service took place.

The bride was attractively gowned in a creation of peach colored georgette and lace and carried a shower bouquet of butterfly roses and lilies of the valley. The bridesmaid, Miss Lois O'Connell, sister of the bride, wore a pretty dress of green georgette and tulle. Her bouquet was of Premier roses. Orval C. Steele of Cleveland was the best man.

Immediately after the service Miss Early played "Meditation." A dinner was served at tables decorated in a color scheme of pink and white carried out in flowers and candles.

Mrs. Early was graduated from the Salem High school and Western Reserve School of Nursing, Cleveland. Since her graduation she has been practicing her profession in Salem. Mr. Early, a son of Mr. and Mrs. John W. Early of Lakewood, holds a position in the office of the Nickel Plate Railway company, Cleveland.

Mr. and Mrs. Early left Saturday afternoon by auto for Denver, Colo. They will visit other points of interest in the west and upon their return will live in Cleveland. Out of town guests were Mr. and Mrs. John Early and family, Mr. and Mrs. Clarence Shultz, Miss Lois O'Connell and Mr. Steele, all of Cleveland.

## Courtesy For Miss Foote

For the pleasure of Miss Constance Foote, Champagne, Ill., who has been visiting Mrs. Lee Osborne, of Warren formerly of Salem, Mrs. Charles Thomson, of Franklin ave., entertained at a luncheon-bridge Saturday at the Quaker Tea House, McKinley ave. The tables were prettily decorated with flowers.

In the bridge games the prizes went to Miss Jane Campbell and Mrs. Earl Lora.

Out-of-town guests were Mrs. Osborne and Mrs. McCormack, of Warren.

## At Kerr Home

Club associates and their husbands were entertained Saturday evening at the home of Mr. and Mrs. John Kerr, East Fourth st.

The evening was spent playing 500 with five tables in play. Prizes were awarded to Mrs. Ray Beck, L. A. Beck, Mrs. Frank Stoudt and John Hollinger. A lunch was served by the hostess.

Mr. and Mrs. John Hollinger were invited guests.

Rev. and Mrs. Harry Waller and little son, of Orlando, Fla., spent the week end with relatives here.

Joe Bodo, of Pittsburgh, is spending the week at the home of his parents on Jennings ave.

Lamorne Derr, student at Wittenberg college, Springfield, came home Saturday for the summer vacation.

## Marriage Licenses

A marriage license has been issued to Carl Rupert, a grocer residing at Columbiana, and Miss Vada Messersmith, daughter of Mr. and Mrs. Harry Messersmith also residing at Columbiana. They were married by Rev. Strubel.

Earl Randolph, a farmer living near East Palestine, and Miss Cletha Young, daughter of Mr. and Mrs. Thomas Young, of East Palestine have obtained a marriage license. They were married at Lisbon by Rev. J. M. Cameron of the U. P. church.

## Bower Reunion

The annual reunion of the Bower family was held Sunday at Willow Grove grange hall, southwest of Salem, with an attendance of about 65.

After a picnic dinner a literary program entertained. The reunion next year will be on the second Saturday in June at the same place. The officers are: President—Edward Bower, Hanoverton; vice president—Milton Bower, Cleveland; secretary—Blanche Bower, New Waterford.

## Maccabee Dance

Doc Parker's orchestra played the dance program at the Maccabee dance Saturday night at the hall, Main st.

There were guests in attendance from Youngstown, Geesburg, Canfield, Alliance and Sebring. Prizes were given and the grand prize went to Herbert Bush. A lunch was served. The next dance will be in one week.

## Harriet Watt Guild

The Harriet Watt guild of the Episcopal church will meet Wednesday evening at the home of Mrs. A. Farmer, 23 Woodland ave. The associate hostesses are Mrs. Ralph Sturgeon and Mrs. Robert Wilson. All members are asked to be present.

Miss Juanita Litty, of San Antonio, Texas, arrived here Sunday night to spend a month with her parents, Mr. and Mrs. H. P. Litty, east of the city. Rev. and Mrs. Delbert Palmer and little daughter, of Warren, were guests Monday at the Litty home.

Mrs. Lydia Deemer, of Sebring, and Mrs. A. G. Phillips, of Salem, were week end guests at the home of their brother and wife, Mr. and Mrs. Frank Dillion, Lisbon rd.

Mrs. Frank Dillion, of Alliance, spent Sunday at the home of her sister, Mrs. Lyle Nease, West Pershing ave.

Norman Dow of Tenth st. submitted to an operation for appendicitis Sunday morning at the Central Clinic hospital.

Mr. and Mrs. R. K. Hawley and daughter of Akron, spent Sunday with Mr. Hawley's parents, Mr. and Mrs. W. A. Hawley, Chestnut st.

## Pajamas Are Called Crude for "Calling"

St. Paul, Minn., June 4.—It has been decreed that pajamas are "crude attire" for male university students to wear when calling upon co-eds at an early morning hour. And too, the practice is socially incorrect.

This was the social dictum laid down by the student council of Hamline university in passing upon the pajama parade staged there recently by several hundred students. The boys paraded through the girls' dormitory after the girls had retired. The result of the council's deliberation follows:

"Pajamas worn by men visiting women's dormitories during early-morning hours are crude attire, and to say the least, socially incorrect."

## HUNT MISSING SCHOOL TEACHER

Disappeared On May 1 In Youngstown; Police Just Told of Case

Youngstown, June 4.—Police, spurred on by the sobs of a distraught mother this morning began a hunt for Miss Agnes Newland, 18, lay teacher in a parochial school, who has been missing from her home, 60 E. Delason ave. since May 1.

"Will they find her? O, if they can only get me word from my darling girl," sobbed Mrs. F. A. Newland, the girl's mother, this morning.

The fact of the girl's disappearance was withheld from police until today because Mrs. Newland shunned publicity and entertained hopes of hearing from her daughter. Late yesterday she made up her mind that her girl would not be found unless widespread notoriety were given the case.

She told police that Agnes is 18 years of age, five feet and five inches tall, of light complexion with blue eyes. Her brown hair was worn long when she was last seen.

The evening of May 1, she was wearing a dark blue coat, trimmed with black fur, a black hat, black gloves and black oxfords.

"Agnes left home on the evening of May 1 to attend a party at South High school. She was attending the night classes there while teaching during the day at St. Cyril and Methodius school on the North Side," Mrs. Newland said.

"She turned at the door when she left and said, 'Don't worry, I'll be back early.' It was the last we saw of her."

Mrs. Newland's home is only a block from South High school. Mrs. Newland sat up for some time waiting for Agnes but when she did not return she went to bed. In the morning Agnes was not in her room.

## AVIATRIX

(Continued from Page 1) plane swooped down through the cloud banks, made a perfect landing in the harbor and moored near the Halifax naval air station here yesterday after an uneventful journey from Boston.

A few minutes later, the plane took off again for Trepassay, but the heavy fog prompted Stultz to return here about 30 minutes later. The murky atmosphere prevented any further attempts to take off during the day.

## Would Be Trail Blazer

Miss Earhart hopes to be the first woman flier to successfully cross the North Atlantic ocean in a non-stop flight. She will relieve Stultz at the controls during their contemplated flight to England. She is a capable pilot, having more than 500 hours of solo flying to her credit.

The greatest secrecy shrouded the preparations for the flight. The plane, a Fokker, officially recorded as the NX-4204, was purchased from Commander Richard E. Byrd, who originally intended using it in his forthcoming antarctic expedition. Preparations for the flight had been going on for weeks, but the announcement of the sale of the plane was not made until last Friday.

Except that the Friendship is equipped with pentons, it is almost an exact replica of the Southern Cross, which is now winging its way over the Pacific.

## Stultz Was Grayson Pilot

Miss Earhart served in the Canadian Red Cross as a nurse throughout 1917 and 1918. Later she went to California where she took up aviation.

Stultz jumped into the limelight last year as the pilot for Mrs. Frances Grayson's plane Dawn in its first take-off. Engine trouble developed on the ill-fated plane when the ship was several hundred miles out at sea, but Stultz managed to bring it back to Old Orchard Beach, Me., in safety. Later the Dawn was lost, with Mrs. Grayson and two men flyers aboard.

Gordon hails from San Antonio, Tex., where he was born in 1901. He served in the army air service from 1919 to 1926. For the last two years he has been associated with the Reynolds Airways Corporation as a flight mechanic.

Fully loaded, including the weight of its three passengers, the plane weighs a little more than six tons.

## BEATRICE

(Continued from Page 1) sible that if such a lift was given, the motorist fears he will be called the abductor and prefers to remain silent.

Beatrice, it has been learned, tried to wander from home. Twice she was missing nearly all night and on one of these occasions she was located the next day in a public building in the city of Campbell. No one saw her walk or ride there but she got there.

## Police Are Baffled

The case is getting odd, and colder grow the so-called clues which at first appeared to be leading toward the solution of the mystery. At every angle police have been baffled. Dozens have been suspected. Countless Ford roadsters have been investigated. But the Beatrice continues to bob up, that Beatrice might have left home some way of her own accord.

Physicians who examined the body established that she had not eaten for several days. Not a drop of anything could be found in her stomach or intestines. She died delirious, starved, suffering from exposure, such examinations indicate. This, coupled with the facts that her mind was not strong, and that she was a mute, add to the theory that she herself may have brought on her own death.

## NOMINATE CAL

(Continued from Page 1)

heard of such a letter, but no one has seen it and, in fact, no one can be found who has heard of anyone that has seen it.

## Denny Butler Has Letter

Friends of Van M. Butler, chairman of the national committee who naturally would be the president's spokesman in such a matter, deny emphatically that Mr. Butler has any such missive. Others whose names have been linked in the gossip are equally emphatic in their denials. Hence, the conclusion reached by the drafters is that no such letter is in existence, at least, yet. And in that situation they are going ahead with their plans.

They can, in fact, do little else but go ahead. To haul down their flag now, at this stage of the proceedings, would be tantamount to admitting the impossibility of "stopping Hoover." Half the New York delegation of 90 votes, a dozen votes in Illinois, nearly all of Pennsylvania, a whole flock in New England, and a lot in the south were being held outside the Hoover column on the "draft Coolidge" plea. The anti-Hoover leaders can't let go.

In the end, it probably comes down to the diminutive figure of Secretary of the Treasury Andrew W. Mellon. The 79 votes that he will control of Pennsylvania likely will prove the bell-wether of the balloting. The question of how Pennsylvania will go on the first ballot has become, for the time being at least, the most interesting and significant question of the convention.

## Watch Pennsylvania Vote

If Pennsylvania goes to Hoover on the first ballot, the chances are that it will be quickly over with the nomination of Hoover assured.

The cabinet candidate can count between 450 and 500 votes outside the Keystone state, unless instructions and pledges are violated.

Furthermore, Pennsylvania going for Hoover would be accepted as the "tip-off" that Mr. Mellon knew that President Coolidge would not consent to the draft.

If, on the other hand, Pennsylvania's votes go to Mr. Coolidge it will galvanize the anti-Hoover forces into electric energy. Or should Pennsylvania's votes be held, for example, for Mr. Mellon?

The fact will be interpreted as indicating that the sphinx-like little man from Pittsburgh is willing to lend the tremendous weight of his influence to the task of stopping his colleague in the cabinet.

Pennsylvania holds the key to the situation as has few other single states in Republican history. For as Pennsylvania goes quite probably goes the convention.

## FLIERS

(Continued from Page 1)

passed, however, early today indicating the four men on board the big tri-motored monoplane were certain of their ability to carry on to Suva.

The plane was 24 hours out from Kauai at 5:20 a. m., island time and at its present rate of speed should reach Suva sometime between 3:30 and 6 p. m., tonight, island time.

## Sight Phoenix Islands

Sydney, Australia, June 4.—The trans-Pacific plane, Southern Cross, was over the Phoenix islands on its hop from Kauai, Hawaii, to Suva, Fiji islands, at 1:34 p. m. (Greenwich mean time) or 8:34 a. m., New York daylight saving time, said a radiogram from C. E. Kingsford-Smith, co-pilot of the machine, today.

Phoenix islands south of the equator approximately 1,800 statute miles from Kauai.

Kingsford-Smith kept up a running fire of communication with the LaPerouse radio station to show that all was well and that all on board were confident.

Weather reports from Suva this evening said that there was a full moon and a light breeze. Flying conditions were described as "perfect." The landing field was illuminated with searchlights in the event of a night landing.

## Taking Troubles Lightly

Honolulu, June 4.—Grinning at their uneven odds with death, four men in an airplane today were fighting tropical storms a mile and a half above the ocean in a daring attempt to be the first to span the treacherous reaches of the South Pacific.

They are the gallant crew of the tri-motored Fokker plane, Southern Cross, Capt. C. E. Kingsford-Smith, C. T. D. (Jim), Henry W. Lyon and James Warner, who reached here Friday after a non-stop flight from the mainland of California.

It was the first lap of their proposed 7800-mile flight to Australia. With barely two days' rest, the air-men yesterday morning climbed aboard their ship at Barking Sands field, on the neighboring island of Kauai, and calmly set out on the longest overwater flight ever attempted.

Their destination is Suva, Fiji Islands, a little dot in the Southern Pacific 3170 miles from Honolulu. As on the 2400 mile hop from California to Hawaii the unfailing radio told the progress of the hazardous venture.

These messages told of storms and the struggle to rise above them with a missing motor as calmly as a man would say "good morning." These men already reconciled to death, but fighting every minute to live, take their trouble lightly and in a jesting mood their radio quips, flashing out of the darkness, are dramatic. For instance:

## Motor Goes Bad

"A race between us and the clouds. Going to 10,000 (altitude). Going to be a bad night. Motors doing heavy pulling to 6,500."

The message was received at 9:40 last night, Pacific time. Five minutes later came this:

"Still circling for altitude."

Taking off from Barking Sands at 5:20 Sunday morning, the huge plane circled the field once and then started a bee line for Suva.

The radio told of eating away space at the rate of 100 miles per hour. The weather was reported

fair and everything apparently was fine. Then suddenly came this sickening message:

"One motor sounds bad. Have dropped to 60 miles an hour." At that hour the plane was 1,000 miles out from Honolulu and 700 miles from the nearest land—the tiny Phoenix group of islands.

For 20 minutes a watching world waited in anxiety. Then finally this message:

"Passes Equator at Midnight. Motors not so steady, but no danger. Speed at present 80 knots."

Twenty-five agonizing minutes later came this:

"Have encountered many small rain storms and recently the star-board motor was sputtering. All O. K. now."

At midnight, Pacific coast time, the Southern Cross passed over the equator, 1670 miles from Barking Sands. The plane was averaging 100 miles an hour. Approximately 1500 uncertain miles and 17 menacing hours were still ahead of the fliers.

At 1 o'clock this morning, Pacific time, the huge monoplane was in clear view of the constellation "Southern Cross" for which it was named.

The equator had been crossed, and the plane continued roaring on its way at a speed of 100 miles an hour. Seventeen hundred miles of the dangerous hop from Kauai island to Suva had been covered and 1400 miles stretched ahead.

## CLASS PRESENTS

(Continued from Page 1) given cheer leaders letters.

## Debate Letter Awards

Coach James Pley presented debate letters to his teams. Those receiving letters were Walter Deming, Virginia Mae Callahan, Florence Davis, Elvira Ressler, Charles Wilhelm, Walter Coy, Ted Van Campen and Susie Lutsch.

Twenty-eight students were given certificates for outstanding work in stenography. These were: Meda Kelley, Martha Whitney, Alice Stral-smith, Edna Boyd, Letha Hoopes, Pauline Ingram, Thelma Justice, Theda Justice, Helen Kloos, Margaret Mae Mullins, Mary O'Keefe, Melvin Ormes, Victoria Pitticar, Ruth Chappell, Mary Older, Ada Lottmann, Neva Clarke, Cathryn Horst, Pauline Hoopes, Elizabeth Jacobson, Marion Jones, Lorene Jones, Vivienne Ormes, Emilia Orasheim, Helen Shelton, Adele Treat, and Florence Shriver.

Myron Baker gave the final senior speech of the year, speaking on "Electricity."

Hawarden, Ia. — Constable John W. Eastman is 85 years old, but he still has young ideas. He is seeking re-election to the village cop's job. He's held it down more than 40 years.

## Markets

PRICES IRREGULAR

New York, June 4.—Stock prices were fractionally irregular at the opening of the market today. U. S. Rubber declined 1/4 to 42 1/2. Although Motors generally were higher, Chrysler advanced 1/4 to 84 1/2; Hudson up 1/4 to 92 1/2; Nash up 1/4 to 93 1/2; and Willys-Overland up 1/4 to 26 1/2. Dupont de Nemours sold at 40 1/2, up 1/4 and a new high for all time. General Motors advanced 1/4 to 202. Sears Roebuck gained 1/4 to 110 1/2, while General Electric lost 1/4 to 162 1/2. The Oils and Rails were irregular.

Speculative industrial and railroad stocks were turned over in large volume in the early trading today without important changes in prices, one way or the other. Profit-taking and professional selling was counterbalanced by the enormous outside demand for stocks of the motor, copper, oil, steel, equipment and other American producers, and the passing of the June "squeeze" in the money markets is expected to add to purchasing facilities of the American public. Call money was unchanged at 6 per cent.

General Motors was freely offered around 200, and was unable to improve on its opening price of 202. Packard Motor, Chrysler, Studebaker and other motor shares sold within a small radius of Saturday's closing prices. Radio dropped back 6 points to 217 when offerings crowded the market. The packing companies' stocks were active and strong, under the lead of Armour, for which high earnings are estimated this year.

The first industrial and business reports of the week were favorable, freight car loadings have been gradually increasing, in contrast to the same period last year, when the seasonal decline was under way. Prominent leaders in the gasoline industry reported the discontinuance of premiums to buyers in the middle west and eastern consuming centers, and the high volume of building contracts was still in evidence.

Bullish pools rushed along a few of the speculative industrial in the second hour, making their favorites "active on the tape." Railway steel springs, featured the equipments, Victor Talking Machine the specialties and Armour of Illinois the packing stocks. Fox Film sold in volume above 90 and U. S. Steel was well bought around 145.

### CHICAGO LIVESTOCK

Chicago, June 4.—Hogs—Receipts 58,000; market weak to 10c lower. Top 9.90; bulk 9.10-9.85; heavy weight 9.35-9.85; medium weight 9.35-9.90; light weight 9.50-9.90; light lights 7.50-9.70; packing sows 8.40-9; pigs 7.4-8.50.

## GRANGERS URGE MORE ECONOMY IN GOVERNMENT

Mahoning County Pomona In Session Saturday At Greenford

In a resolution passed by Mahoning county Pomona grange in session Saturday at Greenford grange hall "strict economy in all branches of government was urged, and it was suggested that all subordinate granges talk rural police, thereby helping to build up public sentiment that will demand this protection for rural section."

In another resolution this grange favored "the exemption from taxation of that portion of a farm or home which is covered by a mortgage."

A resolution of respect for the late Cheney Stewart was passed. A committee was appointed, to confer with similar committees from Columbiana and Stark counties to make arrangements for the tri-county picnic to be held Aug. 11, at Lake Placid. This committee is composed of Vernon Crouse, J. C. Hedge, D. R. McConnell and C. S. French.

Permanent buildings for the use of four H clubs of Mahoning county are to be erected at Standing Rock, June 26, and Pomona recommended that all subordinate granges as a project work assist in the preparation of the club camp on this date.

There was a Memorial service for six members, A. D. Whinnery, Smith; Eli Spencer, Ellsworth; Robert Nettleton and R. H. Beverly, Dublin, and Ralph Slagle, Goshen.

Program Given

This program was given at the afternoon session:

Vocal duet, Mrs. Allen Dickson and Mrs. Francis Allen; reading, May Kathryn Allen; vocal solo, Mrs. Olga Schenk; paper, "Moths and Butterflies," Virginia Beverly; music, Mrs. B. J. French and daughter; reading, Lucille Greenizer; talk, "What Profits Most," by County Agent J. C. Hedge; vocal solo, W. H. Matthews; reading, Darhl Richy; vocal duet, "Pickaninny Sandman," by Mrs. Grace Miller and Mrs. Helen Watkins.

Eight candidates were initiated in the fifth degree at the evening session and the work was put on by the Greenford grange team. A team from Dublin grange gave a drill.

Talks were given by Mr. Williams, deputy of Columbiana county, A. H. Stratton, editor of the Ohio State Grange Monthly, H. B. Shelton, Mt. Nebo grange, and George Barnes, Perry grange.

Songs were sung by the entire group and other numbers were: Vocal solo, Mrs. Olga Schenk, Smith grange; duet, Mrs. Grace Miller and Helen Watkins; play, "Dr. Scattergood's Clinic," by 17 women from Dublin grange.

The next pomona meeting will be on Nov. 3.

## SUNDAY THEATER ROW STANDSTILL

Marion Judge Rules He Has No Jurisdiction To Hear Cases

Marion, June 4.—Marion's Sunday theater fight was at a standstill today, following the decision of Probate Judge L. B. McNeal, who ruled he had no jurisdiction to hear charges against 15 theater owners and employees of three theaters who were arrested yesterday and charged with violating the Sabbath law.

The employees including Managers, E. F. Sharpless of the Grand J. J. Huebner of the Oakland, and Ora Dewese of the Princess were arrested on warrants filed by Marvin Crabtree.

Though placed under arrest the managers of the three theaters kept their houses open.

Sharpless is under indictment for Sunday operation of his theater. Two previous trials of Sharpless have ended with hung juries.

## CLUBMAN KILLS HIS ATTORNEY

Baltimore, June 4.—During a dispute involving his father's estate, Louis Berman, young clubman, today fired five shots into the body of Clifton A. Brown, his attorney, as the latter sat at his desk on the 18th floor of a downtown office building.

Brown died almost instantly. Berman fled to the street, where the smoking pistol was still in his hand.

He was held without bail, after being captured.

## SELF THINKING

(Continued from Page 1)

athletic ability, although some educators get side-tracked and do this very thing. It is not a place organized primarily for the purpose of enabling its graduates to make more money. It should not even be an information bureau turning out walking encyclopedias. The real aim of education is to train a person to think for himself, to get behind facts and see the reason for them, to understand them in relation to other facts, to have an intelligent appreciation of life.

"You are living in a complex civilization that demands clear and incisive thinking. You must cultivate a sense of values, see each part in relation to the whole, keep in mind the far-reaching influence of every thought and act. Wisdom is the principal thing therefore get wisdom; and with all thy getting, get understanding."

## Obituary

ORIN BOWER

Orin Bower, 35, died of heart trouble at 11:55 p. m., Saturday at his home, three miles southwest of Salem. He had been ill since November.

Mr. Bower, who was born near Guilford, had spent his life in this vicinity.

On Sept. 19, 1917, he was united in marriage with Flora May Courtney at Youngstown.

Three children were born to them, Leora May, deceased; Russel Albert, eight years old, and Evelyn Lucille, four years old, at home.

Surviving are his wife, Flora Courtney Bower; his father, A. D. Bower, Damascus rd., and a sister, Mrs. C. A. Briggs, Garfield.

Mr. Bower was a member of the Sunday school of the M. E. church, Winona, and of Willow Grove grange.

The funeral at 2 p. m., Tuesday at the home will be in charge of Rev. Homer Courtney, of Tiffin; in interment in Grandview Burial park.

## SEEK MOTIVE AS YOUTH IS SLAIN

Lester Boyd, 17, Member of Prominent Family, Found Murdered

Massillon June 4.—Police today were continuing efforts to discover the motive for the fatal shooting of Lester Boyd, 17, member of a prominent Massillon family here.

Young Boyd was shot from ambush near midnight Saturday night and died shortly afterward.

Apparently the youth had been waylaid as he returned from the home of Ellen Fichter, 16, whom he had escorted home from a church festival. A bullet from a 32 calibre revolver struck the boy in the right side, then ploughed upward through the left side, passing near the heart. He was found, lying face downward and still breathing, by James Morris, a passerby. The victim expired before an ambulance could be summoned.

Friends of the lad said Boyd bore an excellent reputation and had no known enemies. Miss Fichter said she had not kept company regularly with any boy, which tended to discount a jealousy motive for the slaying.

The weapon used in the killing had not been found today.

## MABEL IS SORE AMELIA STARTED

Would Take Off Today On Atlantic Jant Just To Beat Rival

Curtiss Field, N. Y., June 4.—"I'll take off today, if I can get a pilot," declared Miss Mabel Boll, the "Queen of Diamonds," when she learned that Miss Amelia Earhart, aviator, and Wilmer Stultz, pilot, had flown from Boston to Halifax, presumably on the start of a flight to London.

Miss Boll is determined to be the first woman to fly over the Atlantic. She recently flew from here to Havana with Stultz and Charles A. Levine.

She said the Bellanca monoplane, Columbia, in which Clarence Chamberlin and Levine flew to Germany last year, had been placed at her disposal for a flight to Paris and that she had engaged Stultz as her pilot. She appeared very much disturbed at the news that Stultz had hopped off with Miss Earhart.

"I am trying to get a pilot now to fly the Columbia to Paris over the southern route," said Miss Boll. "If I can get a pilot today, I will hop off immediately."

## ONE OIL LEASE APPROVED TODAY

Washington, June 4.—The supreme court today sustained one oil lease made by ex-Secretary of Interior Albert B. Fall in the Salt Creek field of Wyoming, near Teapot Dome.

The Kinney Coastal Oil company which leased 800 acres, was successful in winning a court order halting development of a town site on the land by Michael F. Kieffer, a homesteader.

A senate committee is investigating Salt Creek leases and royalty contracts.

## TO SIFT CHARGES

(Continued from Page 1)

that they had asked for full co-operation in the inquiry and promised that they would exert every effort to give a "square deal" to everyone involved.

The Georgia senators will present the Peterson and other cases, while other southern senators and congressmen are expected to appear before the committee. After a hearing at Atlanta, the committee probably will go to Nashville, Tenn., Brookhart said.

"We have had many complaints which we will ask be investigated," said Harris. "We believe that the investigation will bear out the repeated charges made that postmasterships have been placed on the bargain counter in the south."

Committee members assisting Brookhart in the inquiry are: Senators Dale (R) of Vermont; Pitts (R) of Oklahoma; George (D) of Georgia; and Heflin (D) of Alabama.

## MINNEAPOLIS IS HOST TO ROTARY

International Convention June 18-22; Prominent Speakers Booked

Minneapolis, June 4.—A worldwide exchange of views on civic, national and international conditions, problems and opportunities for fellowship and service is drawing together a group of 10,000 delegates to the Rotary International convention here June 18-22. Shiplads, and may smaller bands of visitors from overseas are now enroute to meet with their Rotary brethren from around the world.

As spokesman for the five countries in which Rotary clubs have been organized in the last year, Dr. Wilhelm Cune, former chancellor of the German Republic and steamship magnate, will respond to the address of welcome to these new Rotarians by Arthur H. Sapp of Huntington, Ind., U. S. A., the president of Rotary International.

Reflecting the best thought of men prominent in public life from 44 countries of the world, a daily series of brief talks by Sir Donald MacLean, former deputy chairman of the British house of commons, Dr. Edeard Willems, noted Belgian educator; Dr. Eduardo Moore of Santiago, Chile; Dr. R. G. McPhee, Geelong, Australia, physician, and many others feature the morning sessions of the convention.

Five days discussion of the aims and objects of Rotary and the obligations of Rotary clubs in community work, will be accompanied by an elaborate program of typically American entertainment arranged by the Minneapolis host committee.

Nearly 2,900 communities throughout the world will be represented in this great gathering in the new Minneapolis auditorium. Many special assemblies for the discussion and development of social and civic opportunities for service will bring out the coming year's program of activity to be carried into every corner of the globe where Rotary fosters better living conditions, higher standards of ethics in business life, social and civic service to humanity, mutual understanding and universal concord.

In the past five years the institution of Rotary has nearly doubled, growing from 1,493 clubs to nearly 2,900 clubs. Seventeen more countries have been added and now Rotary is deeply rooted in 44 countries of the world.

Keep youth longer! cleanse the system of poisons

Two of the great enemies to youth and vitality are delayed elimination and intestinal poisons. To keep yourself free from both these common difficulties will help you to stay young.

With the use of Nujol you can do it too. For Nujol absorbs body poisons and carries them off, preventing their absorption by the body. Nujol also softens the waste matter and brings about normal evacuation. It is harmless, contains no drugs or medicine, does not cause gas or griping pains, or affect the stomach or kidneys. Every corner druggist has Nujol. Make sure you get the genuine. Look for the Nujol bottle with the label on the back that you can read right through the bottle. Don't delay, get Nujol today.

When You return to Your "Honeymoon Home"

W H E N you begin married life in your "Honeymoon Home," let the Maytag add to your happiness and comfort, and prolong the life of that dainty, beautiful linen found among your wedding gifts.

The Maytag washes by water action alone. It is hand careful with delicate clothes, yet so thorough that no hand-rubbing is necessary, even on the stubborn edge dirt of collars and cuffs—so rapid that an entire washing is done in an hour or so.

The quick-cleaning, self-empting cast-aluminum tub keeps the water hot for an entire washing, and it will not dent, chip, rust nor corrode. The adjustable legs make it just your height.

The new Maytag Roller Water Remover has a Safety Feed, automatic tension, self-reversing drainboard and instant safety release. The large, soft rolls remove both soap and water evenly from all parts of the garment without pressing hard-to-iron wrinkles into the clothes.

## REPORT CHANG'S TRAIN WRECKED

London Paper Hears that Marshal Was Wounded By Rail Bomb

London, June 4.—Marshal Chang Tso Lin, former dictator of the Peking government, was slightly wounded, several members of his bodyguard were killed and members of his personal suite were injured when Chang's train, upon which he was fleeing from Peking to Mukden was bombed just outside of Mukden early today, according to a Tokyo dispatch to the Evening News.

Three coaches of the train were wrecked.

The Chinese accuse Japan of responsibility for the bombing to assure Chang's downfall.

Foreign office officials said this afternoon they had no official confirmation of the press report that Chang had been wounded by a bomb explosion.

The bombs had been placed on a bridge and exploded as the train was passing over it.

Thirty alleged southern (Nationalist) soldiers dressed in civilian clothing are reported to have been killed when a large group of Chinese acting suspiciously, closed in upon the train. It is believed that they plotted to seize Chang.

Word was received here that Japanese troops had arrested two Chinese with bombs in their possession. The telegram gave no details but it indicated that the Chinese had been seized somewhere along the railway line in Manchuria.

A telegram from Mukden giving fresh details of the journey said that it was marked by danger and adventure throughout.

## DISASTER LOOMS AS DRY RESULT

So Says Raskob, General Motors Chief, Talking Of Prohibition

New York, June 4.—Disaster, possibly even rebellion, lies in the wake of prohibition believes John S. Raskob, chairman of the finance committee of General Motors, who, despite his affiliation with the National Association Against Prohibition, rarely touches liquor.

In a letter to Colonel Patrick H. Callahan, Louisville, Ky., dry crusader, Mr. Raskob sets forth why, as a good citizen and the father of 12 children, he favors revocation of the dry laws.

Mr. Raskob points out in his letter that no one can study the results of the 18th amendment without coming to the conclusion that its administration has been a complete failure.

"The menace of prohibition laws," he says, "is the spirit of intolerance underlying their adoption, and this is bound to result in rebellion."

## 200 People Attend Annual Reunion Of Water Valley School

Nearly 200 people were interested in the sixth annual reunion of the Water Valley and Fairview schools which was an enjoyable event of Saturday at the Fairview schoolhouse, just west of McCracken's corner, Lisbon rd.

Those who came from a distance were: Ross Phillips and son Dallas, and Mrs. Louisa Test, Cleveland; John F. Knoedler and Mrs. Anna Bockus Canton; Mrs. Belle Gilmore Chicago; Miss Mary Gaunt, of Pittsburgh; and James Burson, of Sandusky. Others were from this vicinity and nearby towns.

Emmer Entriiken and Alva Dunlap, who are both more than 80 years old, were the oldest people at the reunion, and Mrs. A. G. Phillips, of Salem, was the oldest teacher.

Following a fine picnic dinner there was a business meeting at which time these officers were chosen:

President, Ralph Huston; vice president, Robert Hickey; recording secretary, Mrs. W. W. Brown; corresponding secretary, Miss Ava M. Barnes; treasurer, Charles Entriiken; entertainment committee, Mrs. James McComer, Miss Mary Bates and Harry Stratton; table committee, Mrs. Vernon Entriiken, Mrs. Alice Beck, Mrs. Laura Sprowl, Roy John and Samuel Hillard.

Harry Young of Salem, who attended the reunion for the first time, gave some interesting reminiscences of his school days, and a musical program entertained. A trio composed of Frank Yengling, Fred Snyder and L. S. Morningstar, gave selections on a harmonica and stringed instruments, which were much appreciated. Mrs. Lucille Halvstad Plum, of Alliance, and Mrs. W. R. Ovington and daughter, Genevieve, gave vocal numbers, which were well received.

The reunion in 1929 will be on the first Saturday in June at the schoolhouse.

## ABOUT TOWN

**Has Son Arrested**  
James Post, Spring Valley, was arrested Saturday by Patrolmen William Reardon and Ralph Stoffer on a charge of assault and battery. The charge is preferred against him by his father, William Post, also of Spring Valley who alleges that his son attacked him and beat him.

Post was to be tried on the charge in Mayor Phil Hiddleston's court this afternoon.

**Recent Births**  
Mr. and Mrs. H. P. Smith of Canton are the parents of a daughter born Saturday at Alliance City hospital. Mrs. Smith was formerly Miss Esther Frederick.

Mr. and Mrs. Wilbur Whinnery, 303 West Pershing ave., are the parents of a daughter born Saturday morning.

**City Hospital Notes**  
Two patients at the Salem City hospital have been discharged. They are: Virginia Harris and LaVerne Owen, Salem.

**Maccabee Official Here**  
T. R. Kelly of Columbus, assistant general supervisor of Ohio for the Maccabees, called on friends here Monday. Mr. Kelly is enroute to

Chatham, Pa., to attend the dedication of the Maccabee national home there on June 9 and 10.

## POLICEMEN SHOT BY BOOTLEGGERS

Chicago Officer Slain As He Surprises Gang In Saloon Robbery

Chicago, June 4.—Policeman William O'Connor was shot and killed and another man was shot and may die in a series of holdups today by a gang believed by police to be bootleggers.

Within eight hours of the shooting of O'Connor, police arrested Samuel Roti, 23, as a suspect, when he was found near the scene of the crime with a loaded revolver in his possession.

Policeman O'Connor died in a desperate battle with gunmen after he had surprised them in the act of robbing a soft drink parlor.

Four men entered a restaurant, lined patrons against the wall and shot Samuel Paich, 30, when he resisted. At a hospital it was said Paich may die.

## Fort Collins Grabs Track Title Again

Colorado Team Sweeps Field Events to Score 56 Points In All

### NEW HIGH HURDLE RECORD IS MADE

Bennett, Toledo Boy, Star In Dashes; 165 Teams Entered In Meet

Fort Collins, Colo., won the national interscholastic championship for the third consecutive year totaling 56 points in field events in the national meet Saturday at Chicago.

Froebel High of Gary, Ind., finished runner-up to the Rocky Mountain team with 38 points. Libbey High, Toledo, and Tilden Technical High, Chicago, divided third honors, scoring 26 points. Blackwell, Okla., ranked next with 22, and Detroit Cass Technical and Baton Rouge, La., fifth with 20 points.

Salem High, winning two places in the meet, first and sixth in the pole vault, placed 14th.

More than 165 schools were entered in the meet.

Lowell Allen, Salem High, Don Bennett, Toledo Libbey, and Stanley Stokes, of Baton Rouge were the outstanding individual stars of the meet. This trio, by virtue of their outstanding work, were selected by officials of the meet for the final Olympic team tryouts at Harvard next month.

### Salem Story on Page 1

The story of the performances of the Salem High boys in the national meet at Chicago appears on Page 1.

Stokes set a new world's record in the 120-yard high hurdles, stepping the wood sticks in 15.2, and came back to defeat Eugene Beatty, Detroit Northeast High's star hurdler, and two other negro stars.

Don Bennett also defeated three negro flashes, beating Ralph Metcalfe, Tilden Tech and Willie Fowkes, Muncie, Ind., Central by three yards in the 100-yard dash. His time of 9.9 seconds. Bennett also won the 220 in record time, 21.6 seconds.

Morristown, Tenn., team of brilliant half-milers smashed the two-mile relay record, breaking the old record, established in 1927 by Galesburg, Ill., by four seconds. The new record stands at 8:25.7.

Columbus Central, with Herbert Moxley, claimant of the national 440 yard dash record, as anchor man, broke the University of Chicago meet record, running it in 3 minutes 30.3 seconds, four seconds better than the record held by Brazil, Ind.

Moxley was not entered in the 440 yard dash. Central's coach concerned his team's efforts on the new relay record. The colored flash would have won the sprint easily, the best time being 51.2 seconds. Moxley ran it in 48.2 seconds in the Ohio state meet.

## Robusch Will Be Rib's Rival For Olympics

When Lowell Allen tries out for the Olympics, he will probably run against the competition of another Salem High vault star, William "Bill" Robusch, former University of Pittsburgh star, who started his bid to track fame in Salem High school.

Robusch has started training at Pittsburgh for the tests and will try for a berth as high jumper and pole vaulter.

## TEX WARNED HE IS OVERPLAYING HAND ON PRICES

Fear Sap Line Will Soon Shorten Self Unless He Cuts the Admission

BY DAVIS J. WALSH  
 New York, June 4.—With many of our great intellects hastening to confess that the frost is on the pumpkin in so far as summer boxing in New York is concerned, it is worthy of note today that men in his organization have warned Tex Rickard that he is overplaying his hand.

They didn't actually mention the Tunney-Heene heavyweight championship match in this connection but it is suspected that this inference was intended, among others. They think that Rickard has reached the point where he imagines that the sap starts running in the spring mostly because it is in such a terrible hurry to reach the Garden box office.

In fine they fear Rickard is charging too much for ordinary fights, particularly in view of the blight that is supposed to be on the industry this year.

Rickard plans to tap the patients on the cranium for \$40 or more in the ring-side rows at the Tunney-Heene enterprise and today, in the face of his recent admission that it looks like a very short line before the paymaster's window this season, he re-affirmed his forecast that this fight will gross a million and a half dollars. He said he could tell this by the way the reservations are coming in and I guess that explanation will suffice until somebody thinks of a better one.

**Guessed Wrong On Mandell**  
 Any fight between Gene Tunney and Tom Heene shouldn't gross much over a million and I can't help it if Rickard is a man who ought to know what he is talking about. He guessed wrong on the Mandell-McLarin fight and that doesn't make him so much better than a mug who somehow can manage to guess wrong on nearly all of them.

However, his employees were more specifically concerned with the immediate future—next Thursday night to be precise. They told Rickard they thought that \$11 for a ring-side seat was too much for a return bout between Mike McGuire and Armand Emmanuel. Personally, I know it's too much to pay to see McGuire do anything, except retire from the ring but, of course, I'm not one of the patients and I can stay away without affecting Rickard's aplomb in the slightest. But even a patient is likely to recollect that he knows too little about Emmanuel and too much about McGuire and so take his money into the nearest roulette game. It will disappear there, too, but at least he will know why it did.

It seems to me that the most interesting commentary on the fight game hereabouts was furnished the other night by the Loughran-Latzo light heavyweight championship fight. It didn't figure to be much. In truth, but one might think that more than \$18,000 worth of patients would fall in line in this great, big preserve of the come-on, even for a match between Luke McLuke and his stepfather.

## Painleve Seeks To Find Officers Who Skimp On Rations

Paris, June 4.—Monsieur Paul Painleve, minister of war, is on the warpath and his objective is a number of mess sergeants and supply officers who are reported to have been "sabotaging" the army "chow."

It is said that there never was a soldier in any army of the world who failed to find fault with his food but so many complaints from so many quarters poured in that the ministry felt they were not founded on the traditional ground.

Criticism of the food hit Monsieur Painleve on a particularly sensitive spot since he recently used his good offices to have the quartermaster corps budget increased.

"We don't get enough to eat and we don't like what we do get," is the plaint from the ranks.

Monsieur Painleve promises that if he can find who is skimping on the rations a number of non-coms and commissioned officers will have the honor of being "busted" by the minister of war.

## WILLAMAN IN LINE FOR WILCE'S POST

Salem Man, Now Assistant Coach at State, Considered Likely For Directorship

Samuel S. Willaman, of Salem, assistant director of football at Ohio State university, looms as the probable successor of Dr. John W. Wilce, head coach and director, who resigned Saturday, effective in 1929.

Willaman came to State more than two years ago, after being a successful director of football at Iowa State college, Ames, Ia. Previous to that he was coach to Cleveland East Tech High and Alliance High.

Since he came to Columbus, his name has been linked countless times with the head coachship. Constantly, however, Willaman made addresses in which he placed himself squarely behind his director, and he has discounted every report that Wilce was going.

His loyalty to his chief and to his university has won him many friends, even among the staunchest opponents of the Wilce regime, and now that Wilce has actually stepped down, the way is being paved by all sides for Willaman's entry into the coachship.

Willaman is a graduate of Ohio State, and knows the situation thoroughly. He is a fellow who makes steadfast friends among his assistants, and he would make an ideal chief of the department. State has gradually been building up a coaching machine second to

SAM S. WILLAMAN

very few in the country, and by 1929 it should be functioning in a well-oiled manner.

The latest addition to the staff is John "Tarzan" Taylor, one of the greatest linemen ever to graduate from State. He played with the Workmans and Stinchcomb.

## POP BOTTLES ARE TOSSED AT UMP'S

Moran Escorted from The Field by Police In Brooklyn Sunday

New York, June 4.—Brooklyn's pennant-hungry fans are saying it with pop bottles these days when the breaks go against the Robins, and umpires officiating in the no man's land of the National league are considering the advisability of putting their masks on backwards.

Umpire Charley Moran had to be escorted off Ebbets field by police after yesterday's red-hot game between Pittsburgh and Brooklyn, which Outfielder Jigger Statz apparently had saved for the Robins by making a phenomenal shoe-string catch of Traynor's Texas leaguer with two on base in the ninth.

Moran ruled that Statz's alleged catch was a pick-up. Two Pittsburgh runs scored on the hit and the game went into extra innings, the Pirates winning out in the 14th by a 9 to 7 score. After making his decision, Moran was the target for the greatest shower of pop bottles ever unleashed by a Brooklyn crowd. The contest was halted for a few minutes.

The game was won on the fifth hit made during the afternoon by Pete Scott, converted outfielder playing first base for Pittsburgh. Barnhart, with four hits, was another hero.

Forty-five thousand fans saw the Giants get partial revenge for the four straight defeats they suffered in Chicago by trouncing the Cubs, 10 to 5. Artie Nelf, former Giant, was kayoed. Fitzsimmons, New York twirler, helped win his own game with a double and a triple. The Giants now trail the league-leading Reds by only three games.

These two heavy-scoring games, following the wild slugging in Saturday's contests, make a total of 114 runs and 19 homers for the last six National league games played.

The Detroit Tigers, who seemed primed to stop the Yankees after their four straight victories over Cleveland, were plastered by the league leaders again, 7 to 2. Babe Ruth withdrew early with a lame ankle, but Buster Gehrig, obliged with his 11th homer, a gorgeous sock in the fifth inning that was New York's first hit off Whitehill. Hoyt did the throwing for the winners and Catcher Pat Collins covered more ground than a circus tent by making a putout at second base.

The game drew the largest Detroit crowd of the year, 38,000.

The Athletics trail the Yanks by 8½ games. Fox's homer with two on in the ninth wasn't enough and they lost to the White Sox, 6 to 5. Metzler got four hits while Ty Cobb went hitless and dropped below the 300 mark to 298.

Charley Ruffing of the Red Sox scalped the Indians, 4 to 3 and the Sox regained fifth place from Detroit. Other teams did not play.

## Ohio State Freshies Can Now Wear Cap. Is Rule of Senate

Columbus, June 4.—Following a heated debate over the question for more than three months, the privilege of wearing a new traditional cap has been given to freshmen of Ohio State university by the Student senate, student governing body.

Because freshmen this year, showed a dislike for the present cap and refused to wear it as is the traditional custom for first-year men.

### LOANS up to \$500

Friendship may cease when borrowing begins unless you deal with a friendly concern that really makes a business of loaning. Many thousands of people have come to this conclusion and are borrowing from The City Loan today.

You can get a helpful loan under The City Loan plan without any bother to you or your friends or relatives. Just a brief visit to state your needs and to present your application is all that's required. It will not only bring you money at a small charge but will establish your name and credit and assure you of a friendly loan service for all time.

several members of the class suggested a new type of headgear to the Senate last winter. The body, however, refused to ratify the suggestion and declared that the old cap was the official model and should be worn.

Freshmen wanting a change in the style of the caps dropped the matter following the definite decision of the Senate and as a result the freshmen tradition disappeared from the campus. With its hand-tied by a recent ruling of President George W. Rightmire, in abolishing freshmen having, the Senate was powerless to enforce the tradition.

The new cap which is believed will revive the tradition of the Buckeye campus, is a bright scarlet model with a small gray button and a short visor.

# Firestone Breaks all records for Fire Value

**FOUR GREAT TIRES**  
 Supreme in every price class  
**BUY NOW—At these savings**

Other sizes priced proportionately low  
**QUALITY AND SERVICE AT LOWEST PRICES**

It takes quality to make a good tire, and intelligent service, to make that tire deliver all the miles built-in at the factory. Firestone builds extra mileage into Gum-Dipped Tires—the tires De Luxe—which hold world's records for mileage. We supply the service.

Here service means more than careful tire application. Your wheels must be "rim true"—front wheels in correct alignment—brakes equalized—tires correctly inflated at all times. When we apply a tire, the tube will not pinch and give you trouble—beads will not fail due to bent rim flanges—nor will other faulty conditions grind away mileage that belongs to you. We inspect your tires and give service any time you drive in here. If you injure a tire, we will repair it in our modern, completely equipped repair department which is operated by a Firestone factory-trained repairman. We save you money and serve you better.

## AT THE GRAND

John Fox, Jr.'s romantic story of the Kentucky mountains during the Civil war, "The Little Shepherd of Kingdom Come," has been brought to the screen with all its charm and its thrilling drama by First National Pictures.

It comes to the Grand tonight with Richard Barthelmess starred, and with a marvelous supporting cast. The screen version deals entirely with the lives of the Kentucky mountaineers, and the aristocrats of the Blue Grass regions.

As "Chad," the barefoot boy of the mountains, Barthelmess has one of the finest roles of his entire career—one comparable to his "Tollable David." The picture is an Alfred Santell production.

An outstanding performance, in addition to that of the star, is given by Molly O'Day, the clever seventeen-year-old girl who plays opposite Barthelmess. It was this same Molly who, in her first important screen part in "The Patent Leather Kid," became a screen sensation overnight.

The large cast includes such names as Gardner James, Victor Potel, Nelson McDowell, Martha Matlock, David Torrence, Doris Dawson, Mark Hamilton, William Bertram, Walter Lewis, Ralph Yearsley, Gustav von Seyffertitz, Bob Milach, Claude Gillingwater, Walter Rogers and Eulalie Jensen. "The Little Shepherd of Kingdom

Come" is a worthy pictorialization of one of the leading actors on the screen today.

## "THE ENEMY"

Lillian Gish appears in the most modern role of her entire career in "The Enemy," a Metro-Goldwyn-Mayer production which opens at the State tonight.

It is a lavish filmization of the famous Channing Pollock stage success, a mighty war drama dealing with the spiritual havoc wrought by the world conflict, rather than the physical damage. It presents the famous star in the role of the tragic "Paul," a young Austrian bride who is torn from the arms of her husband on her wedding night and thrust into the boiling cauldron of devastating hatreds and brutality. Her husband was a pacifist; her dearest friend, an enemy alien. She saw her babe die of malnutrition; her father-in-law fatten on the ill-gotten gains of a war baron.

Miss Gish is ably supported in this struggle of a war-torn people by Ralph Forbes of "Beau Geste" fame, and others of note, including George Fawcett, Frank Currier, Polly Moran, Karl Dane, Fritz Ridgeway, John Peters and Billy Kent Schaeffer, Fred Niblo directed.

## WATER LILIES SALES LARGE ON THIS FARM

Ravenna, June 4. — Growing of water lilies has worked out to be a profitable hobby to F. T. Wright, retired Ravenna business man and owner of two water lily ponds on the old Harding farm on the Kent-Ravenna rd. near here.

Contrary to general belief, the profit does not lie in the selling of the flowers but in the marketing of the roots.

Last year Wright produced 1,100 water lily roots which retail at anywhere from \$1 to \$50.

"Of course," Wright says, "the \$50 flower roots are few and far between. The ordinary run of roots retail around \$2 each."

Water lily roots are transplanted in an artificial pool on fine estates for scenic and landscape decorations. That alone is about the only use for them.

Raising water lilies is much the same as the business of agriculture, according to Wright.

Both of the man's ponds are arranged so they can be drained at planting time and flooded during the growing season.

## Lead Solution May Be Cure For Cancer

Chicago, June 4.—A solution of lead as a cure for cancer may be a reality in the near future, declared Dr. W. T. Pettit of Ottawa, Ill., in an address before the radiology section of the Illinois State Medical society.

"Lead, it has already been demonstrated, has an affinity for cancer cells," Dr. Pettit said. "Use of the metal in cases of persons believed hopelessly ill has brought cures to 20 per cent of the victims treated at the University of Liverpool."

The present task of science, according to Dr. Pettit, is to find the proper solution of the metal.

Dr. Pettit recently returned from a trip to Europe where he visited several noted cancer clinics.

## HOME-MAKING HELPS

By Wanda Barton

### Place for Garlic, Olives and Peppers

The insistent garlic has worked its way into polite society, and with olives and peppers has become an important part of this flavorful trio. A little garlic goes a long way.

That is, the wiping the inside of a bowl, or pan with a cut bur, a tiny piece dropped into a stew, or the briller brushed over with a cut piece will flavor sufficiently for most tastes. Or, if trying fish in oil, the best medium there is for frying, a tiny bit of garlic may be put in and cooked in the oil while it is getting hot and it will add a faint but delicious flavor.

Sliced stoned olives and minced peppers have many uses and nowhere appear to better advantage than in a special sauce made for boiled codfish. Or in a cold sauce for cold boiled salmon for a hot day dinner. The flavorful trio are also invaluable for use in a sauce for jellied salads, or in crumb peppers that make a delightful luncheon dainty.

### Boiled Codfish with Cardinal Sauce

Four four people get two and a half pounds of codfish taken from the shoulders of a large fresh codfish. Rinse, put into a cheesecloth binder and put on to cook in cold water. Allow to heat slowly, then boil evenly 20 minutes from the time it starts to boil. Lift, drain, slip on a hot dish, garnish with sliced hard boiled eggs, sliced olives, minced peppers, and a few sprays of watercress drawn through sliced lemon. Have ready the sauce and send to table in a hot sauce boat.

Sauce—Beat the yolks of four fresh eggs with four tablespoons each of olive oil and water. Add a cupful of boiling water, stirring constantly and cook until thick and smooth. Add pepper, salt, the juice of an onion, a quarter cupful of olives cut in small pieces from the pits, a teaspoonful of minced red pepper, and sufficient tomato catsup to color it a delicate pink. Wipe the

inside of the sauce boat with a cut bud of garlic before turning in the sauces.

### Crumb Peppers

Cut lengthways three large green peppers and remove seeds, stems and pith. Butter the peppers all over with soft butter and set on a buttered baking dish. Take two cupfuls of coarse crumbs, add a large grated onion, a half cupful of cloves cut from the stems, two tablespoonsful of minced red pepper, a half cupful of chopped nuts, two tablespoonsful of chopped celery leaves, pepper, salt, a tablespoonful of dried powdered onion leaves, a beaten egg, a heaping tablespoonful of soft butter, and enough cream to moisten the crumbs. Fill the peppers lightly and cook in the oven until the pepper shells are tender but not soft.

### Jellied Pineapple and Tomato Salad

Take a can of tomatoes, small size, and put it into a saucepan with a cut bud of garlic, a minced pepper, a small sliced onion, and a few stalks of celery cut up. Cook gently, add a half teaspoonful of salt, a little pepper, and two tablespoonsful of sugar. When done strain, then add a half package of gelatin that has soaked in a little cold water. When melted strain the juice over the pineapple, mix, add a half cupful of coarsely chopped olives, and pour into wet individual moulds, or a large mould, and set aside to stiffen. Unmould on fresh, crisp lettuce leaves and mask with mayonnaise. Garnish with minced pepper or pepper strips, and sliced stuffed olives.

## STYLE EDICTS

Paris, June 4. — Trig double-breasted coats of soft tweed or other material, without fur or trimming of any kind, but perfect in cut and detail, form an important part of every smart collection being displayed in Paris.

They are as simple as any garment could be made, sometimes having no trimming whatsoever but a few pin line tucks making a pattern in the back. Nevertheless, they spell "chic" in large letters.

## LEETONIA

The beautiful double wedding of Miss Mabel Guiler and Z. G. Meyncke and Miss June Cunningham and Raymond Bundy was held at 11 a. m. Friday in the First Methodist church. The marriage service was read by Rev. C. L. Cope, pastor of the church.

The two brides are teachers in the Leetonia public schools. Miss Guiler teaching grade five and Miss Cunningham grade six of the South Side school.

The church was decorated in large baskets of bridal wreath. Mrs. Meyncke's parents died when she was a small child and she made her home with relatives in Whigville. For five years she has been teaching in Leetonia, making her home with Mr. and Mrs. W. D. Risher, 495 Columbia st. Prior to the wedding Mrs. Risher entertained at a luncheon in honor of Mr. and Mrs. Meyncke.

Miss Guiler made a winsome bride in a handsome gown of white georgette with white rose and slipper.

Miss Cunningham was no less charming in her peach georgette gown with matching accessories. She is the daughter of Mr. and Mrs. S. R. Cunningham, Sr. of Pittsburgh, formerly of Leetonia, and is a graduate of the Leetonia High

school. Following the removal of her parents to Pittsburgh she made her home with Mr. and Mrs. George R. Johnson, of East Columbia st.

Mr. Bundy is the son of Mr. and Mrs. E. J. Bundy of East Columbia st. Following the ceremony both couples left on motor trips. Mr. and Mrs. Meyncke will go first to Washington, D. C., then to Philadelphia and other eastern cities.

Mrs. Meyncke chose as her going away attire a rose georgette gown, rose and tan coat and hat. They will make their home in Pittsburgh.

Mr. and Mrs. Bundy first motored to Pittsburgh to the home of Mrs. Bundy's parents. From there they will make an extensive eastern trip. Returning they will make their home in Columbiana where Mr. Bundy is employed.

On Friday evening Ralph Patterson entertained a group of his young friends at the home of his parents, Mr. and Mrs. Hector Patterson, High and Walnut sts. The evening was enjoyed in games and music. An elaborate tray lunch was served by Mrs. Patterson and the aunts of the young man, Mrs. Schaeffer and Mrs. Smith of Salem.

Mr. and Mrs. E. J. Dean and son, Vernard, left Friday by automobile for South Bend, Ind., where they will be present at commencement exercises of Notre Dame university. Their son, Edward Dean, is one of the graduates. Another son, Lawrence Dean is attending the same college. Returning they will be accompanied by the two young men.

Mr. and Mrs. Lawrence Berg, Mr. and Mrs. Walter Berg and Conrad Berg were in Pittsburgh on Friday attending the funeral of Mrs. Lawrence Berg's father, William F. Church, of Salem.

Friday afternoon was the closing day of the Leetonia public schools. At 1 p. m. the pupils gathered in their grades and High school to receive their report cards for the year. The summer vacation will be for three months, until Sept. 5.

The Priscilla club of St. Paul's Lutheran church was entertained on Friday evening by Miss Bessie Stiller and Mrs. F. W. Flooding in the Lutheran chapel. The evening was enjoyed in needlework. Dainty refreshments were served by the hostesses.

Thomas Welmer was a Columbian visitor on Friday.

Mrs. John Peppel was visiting at the home of her friend, Mrs.

## JUGOSLAV KING'S GRAVE ILLNESS WORRIES PEOPLE

### Nation Feels Existence Is Threatened By Mussolini

Berlin, June 4. — At a moment when Yugoslavia and Italy stand glaring at each other across the Adriatic and when Yugoslavia feels that its very existence is being threatened by Mussolini's alleged ambition to restore the glory of ancient Rome, it is revealed that King Alexander of Yugoslavia is ill and that his illness has already precipitated a grave political and constitutional struggle in his kingdom.

Alexander is suffering from a stomach ulcer and is afraid that it may be cancer and that he may be facing the same fate that felled his father-in-law, King Ferdinand of Rumania, to the sickbed for a year and finally killed him.

The king's court physicians deny that it is cancer, but Ferdinand's physicians also denied the real nature of the king's illness for months.

#### Condition Improves

Though there has been an improvement in Alexander's condition recently, the illness has progressed so far the Belgrade political circles are already discussing the establishment of a regency in case the illness should grow worse, or in case the king should be forced to go outside of the country to restore his health.

The problem of a regency has precipitated a fight between the military leaders and the court camerilla on the one hand and the parliamentary leaders on the other.

The military and court circles urge the king to establish a regency of his own accord and to name Gen. Jivocovic, commander of the royal guards, as its president, in order to assure their dominance over the regency.

The parliamentary leaders of almost all parties oppose this and threaten to boycott any regency established without their co-operation and consent in an effort to subject the regency to parliamentary control.

While this domestic fight is proceeding practically unknown to the public, Jugoslavian fears of Italian aggression are growing.

Mussolini's establishment of a virtual protectorate over Albania, his alliance with Hungary and Italian shipments of arms to Hungary in violation of the peace treaties, his negotiations with Greece and his recent conferences with Premier Bethlen of Hungary, Foreign Minister Zaleski of Poland, and Foreign Minister Titulescu of Rumania—all these are interpreted in Belgrade as parts of an "encircling policy" comparable with that which the Germans felt England as using against them before the war.

Many circles in Belgrade believe in fact, that Mussolini will strike this year yet, and Yugoslavia is believed to be making preparations to meet an attack.

Belgrade military circles have already figured out the whole Italian campaign in case of war. They believe that Mussolini would strike from four directions—from the north through the Austrian province of Kaernten in the direction of Marburg; from the east through Albania, which Belgrade believes has become an Italian military base; from the south by landing troops at Saloniki, and with or without Greek consent; and finally, from the west by utilizing the Macedonia bands of western Bulgaria. The recent theft of Austrian defense plans would lend color to the first assumption.

Hungary, Belgrade holds, is a certain ally of Mussolini, but Belgrade believes that few Jugoslavian troops will be necessary to check its armies because Czechoslovakia is expected to stop any Hungarian military movements.

Side With Italy Bulgaria is expected to side with Mussolini but only by facilitating the guerrilla warfare of the Macedonian band, which Belgrade believes, it can check by organizing a Bulgarian peasant revolt. The attitude of Rumania and Greece is held to be still uncertain.

How far these fears are justified is, of course, impossible to tell. Belgrade's greatest hope for checking Mussolini rests on Paris and London.

Belgrade depends on France, with which it has a treaty of friendship, to support it not only diplomatically but, if necessary in a military way.

No active support is expected from London, but Belgrade believes that Mussolini's strength depends on England's backing and that this backing would be withdrawn in case of Italian aggression. But such a withdrawal of English backing, Belgrade believes, would mark the downfall of Mussolini.

### Demand Palestine Courts Modernize

Jerusalem, June 4.—A plea for modern procedure in the Palestine courts located in districts bordering on the desert where tribal courts continue to dispense a rough and ready justice has been entered for the townspeople of Beersheba. The petitioners say they are not wandering Bedouins and are entitled to better court arrangements than a crowded room with 18 judges listening and simultaneously arguing the case with one another, while the plaintiff, the accused and the witnesses squat tailor fashion on the floor.

The people of Beersheba maintain also that cases cannot be tried without lawyers who are not allowed in the tribal courts governed by patriarchal custom.

Persons who want anything known that The News is the Want Medium in this vicinity. So read it.

Mr. and Mrs. Henry Houlette and family of Mansfield are visiting the latter's parents here, Mr. and Mrs.

William Hum. Mr. Houlette was called here by the death of his brother John Houlette at New Waterford.

### LISBON NEWS NOTES

The congregation of the Lisbon Presbyterian church united in a union service at the Lisbon Christian church Sunday morning in honor of the retirement of Rev. J. R. Bennett, pastor of the Christian church who closed his pastorate at Lisbon Sunday night.

Mr. Bennett will probably enter an eastern college at an early date. He has been pastor of the Lisbon church for over three years.

### See King George Perfect Landlord

Sandringham, Eng., June 4.—King George of England is revealed as the perfect master and landlord in his dealings with his servants and tenants on his magnificent estate here.

The services and skill of his own personal physician are available for four cents a week per family to his employees, while for two cents one can get half an hour at the pool

tables in the fine residential club the king had had erected for them. The club has reading rooms, bowling green, a canteen where cheap liquor can be obtained, and members have an annual free dinner. The yearly subscription works out at two cents a week.

In addition the king gives large sums to a clothing and a coal fund, and promotes popular concerts every week-end at which the charge is two cents adults, one cent children.

On the estate are fine homes for the workers, and the king's employees on retiring, receive a pension with other advantages. They are housed in good cottages with large gardens.

### DAMASCUS

The Friendship Circle Sabbath School class of the M. E. church, taught by Mrs. Samuel Braund were entertained Friday evening at the home of Mrs. Olin Shoar of Beloit with Miss Faye Pyle associate hostess. The regular business was transacted and a substitute teacher for the summer was discussed.

Games and a social time was enjoyed. Mrs. Charles Pyle, Mrs. Herbert Israel and Mrs. Samuel Braund received prizes. Fine refreshments were served. Mrs.

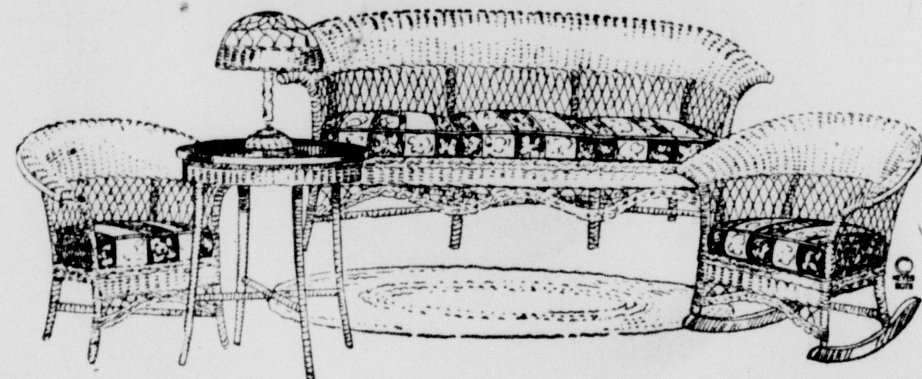

Charles Pyle and daughter, Hazel, Ind., is visiting her parents, Mr. and Mrs. Frank McDonald and Mrs. Dennis Callahan.

Ind., is visiting her parents, Mr. and Mrs. Asa Pim. V. M. Chambers has received word that his brother, James N. Chambers of Huntington Park, Calif., who

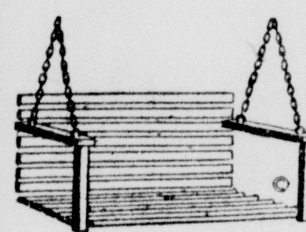

suffered a stroke recently, is improving. Mr. and Mrs. C. G. Long and family are visiting their parents, Mr. and Mrs. Ray Long of Willard.

Mueller's Macaroni, Spaghetti or Noodles, package. .... 12c

## The automatic "FLAVOR ZONE" oven knows when your roast is browned

A roast must first be properly browned, and then cooked in a lowering temperature to draw the flavor from this delicate outer crust into the meat. The Westinghouse Electric Range does this automatically.

Before you leave home, say at 10 o'clock in the morning, you put your dinner—roast and vegetables—in the oven. You make two simple adjustments as predetermined for you by Westinghouse cooking experts, close the oven door and forget about the cooking until dinner time.

At the proper time the FLAVOR ZONE oven will auto-

matically turn the heat on and brown your roast to perfection. Then it will automatically turn itself off and continues cooking in a lower temperature until the whole of the meat is uniformly and deliciously done.

No other range, either fuel or electric, performs first the browning operation and then the cooking operation under full automatic control.

Let us demonstrate FLAVOR ZONE Cooking—the new domestic science—to you, or if more convenient, phone or write for special booklet.
